[1] The algorithm for computing student-faculty ratio was changed this year to better account for the variation in faculty loads in semester hours and also in how part-time teaching is counted. The difference in the ratio computed by this new method from that computed by the old method would in most instances be small.

[2] Other can include International Development, Less Commonly Taught Languages, Congregational & Ministry, Public Health and Science Education

[3] Communication Arts and Sciences split with Speech Pathology and Audiology in 2015-2016
