

Team 10

Text2Touch

## Goal:

Our goal is to design a low-cost braille printer that converts electronic text to braille.

## Project Objectives:

- Printer will cost less than current market versions (< \$1500)
- Printer will fit a generic workstation (approximately 3' x 3')
- Paper-feeding system will operate with paper jams occurring < 10% of the time
- Braille standards will correspond with those defined by the National Library Service for the Blind and Visually Handicapped

Team Members (left to right): Ivy Chipinda, Toby Sterk, Mia Kaczor
