

## Team 14: One Step at a Time

Paul Swanson, Steve Van Ast, Nate Van Wyhe, Cameron Ilbrink

### Overview

Our project goal is to develop a system that allows our customer, Amy, to get up and down the staircase connecting her kitchen and family room.

### Requirements

- Process is safe
- Takes less than 60 seconds
- Does not obstruct access to stairway
- Runs on standard 120V outlets
- Fits interior design themes
- Cost effective
