Michigan's Statewide Naloxone Standing Order Flowchart
Updated November 10, 2020

**Indicators of Success**
- Increased pharmacist awareness of naloxone, the SO, naloxone administration, and recommending naloxone
- Increased public awareness of naloxone, the SO, OD symptoms, and how to use naloxone
- Increased rate of people who have naloxone on hand
- Decreased public stigma about opioid use and having naloxone
- Decreased OD death rate

**Other components**
- Co-prescription/referral from healthcare provider
- Pharmacy/organization standing orders
- Community organizations (e.g., Red Project)
- EMS leave-behind kits
- Secondary distribution materials

**Other channels of naloxone distribution:**
- EMS or personal transport to hospital
- Community organization staff (e.g., Red Project, library)
- EMS
- Law enforcement
- Fire department

**Other channels of naloxone administration:**
- Community organization staff (e.g., Red Project, library)
- EMS
- Law enforcement
- Fire department

**Post- overdose care:**
- EMS or personal transport to hospital
- EMS leave-behind kits
- Warm hand-off or enrollment in recovery program
- Wellness checks by community organizations

**Abbreviations**
- SO = Standing Order
- OD = Overdose
- EMS = Emergency Medical Services
