Editorial

With over fifty years of collecting, the H. Henry Meeter Center has amassed thousands of articles on Calvin and Calvinism. With the current revolution in computer technology it is now possible to make a subject index of the collection available to both on and off-campus students and scholars. However, keeping abreast of the article categorization has proven difficult. Besides photocopying and filing, we must analyze and categorize a few hundred articles each year. To aid us in making this massive collection available to scholars around the world, we are requesting any of you to give us assistance by reading and analyzing some articles which will be included in the computer collection. We would send you an article or articles with guidelines for categorization. If you or one of your graduate students would be interested in helping us please write or call.

On a sad note we announce the death of Mr. Hugh Meeter, friend and benefactor of our Center. The H. Henry Meeter Center, named in honor of his father, will miss the generous counsel and wisdom which he provided to our Governing Board for many years.
