Psychology Intern: Internship
Pace University, Counseling Center, New York, NY

Training Director: Molly Grimes, Psy.D.

Setting Type: University Counseling Center

Population: Pace University is a private secular university with an undergraduate and graduate population of 8,000. Most students are undergraduates, 18-22 years of age, and 49% of the student population identify themselves as racial minorities.

Duties:

- Conducted long and short-term individual therapy, intake assessments, psychological assessments and interpersonal process group therapy.
- Worked as the consultant with Residential Life to help determine the course of action for students living in the dorms who were experiencing emotional difficulties.
- Created and led outreach presentations on safe sex, harm reduction in terms of alcohol and drug use, and stress management techniques.
- Served as the training director for the 10-week long summer internship hosted at Pace University for undergraduate students interested in professional psychology. This included selection of interns, creation and design of seminars focused on professional issues, clinical issues and introduction to psychological assessment.
- Provided supervision to a Master's level clinician and her clinical

work during the academic year.

Seminars:

- Attended weekly seminars on the following topics: multicultural competence, case conference, supervision of supervision and psychological assessment.
- Once per month, participated in diversity in the workplace seminar.
