GENERAL INFORMATION

LOCATION, HISTORY, AND CHARACTER OF THE COLLEGE

GRAND RAPIDS, the metropolis of Western Michigan, is an ideal college town. Being a city of about 150,000 inhabitants, it is not too small to be devoid of those general cultural influences that should surround an educational institution, nor so large as to be a disadvantage to the ideal interests of college life.

Among the many cultural advantages which the city offers and from which our students may profit, we may mention first of all the Public Library. It is housed in a building that displays true architectural art, and has a collection of some 250,000 books, among which are found many standard works of reference; besides, its reading room is supplied with nearly all the leading periodicals of this country and with many from foreign countries. Further, there is the Kent Scientific Museum, which is open daily and can be an efficient help to those interested in scientific subjects. In addition to this, the students have the opportunity of hearing lectures and addresses by noted men who are invited to the city, and of attending concerts, both vocal and instrumental, by some of the leading artists of the musical world.

The origin of the Theological School and Calvin College dates as far back as the year 1851, when the Classis of the Holland Reformed Church officially recognized the need of training men for the gospel ministry. Three years later Rev. D. J. Vander Werp was appointed as instructor, and in this capacity he labored in connection with his pastoral work till his death in 1876. Not until the appointment in this same year of Rev. G. E. Boer as professor, however, did the school assume a definite organization. March 15, 1876 was, therefore, its natal day. Little by little it grew until in 1900 it enrolled fifty students taught by a staff of five professors. By this time the need of a college where young people not looking forward to the gospel ministry could receive a Christian liberal education was beginning to be generally felt.

Accordingly, Synod of the Christian Reformed Church took active measures toward the expansion of the literary department, then consisting of a four year course, into a college. From time to time, as means allowed, both the curriculum and the teaching staff were enlarged so that at present the institution comprises two departments: the college, which offers the following courses, a general four-year College Course, a four-year Seminary Preparatory Course, a three-year Pre-Medical Course, a three-year Pre-Law Course, a two-year Pre-Engineering Course, and a two-year Normal Course; and the Seminary, which prescribes three years of theological study.

The institution is supported chiefly by the members of the Christian Reformed Church, and is controlled by a Board of Trustees composed of two members from each classis. According to the constitution all instruction given must be in harmony with Reformed principles. The various branches of study, therefore, are considered from the standpoint of faith and in the light of Calvinism as a life and world view. The aim of the college is to give young people an education that is Christian, not merely in the sense that devotional exercises are appended to the ordinary work of a college, but in the larger and deeper sense that all the class work, all the student's intellectual, emotional, and imaginative activities shall be permeated with the spirit and teaching of Christianity.

FACILITIES

The new campus, comprising about twelve acres of ground, lies in one of the most beautiful residential sections of the city. The site is ideal. To the east are two beautiful boulevards and the varied scenery surrounding Reed's Lake; and across from its southwestern corner lies Franklin Park, a twenty-acre plot of ground offering splendid opportunity for rest and recreation. All around it are residences of the better class. The grounds have been decorated by a landscape artist and now, nearly completed, resemble a park.

The main building, valued at about $250,000, is an imposing edifice constructed of reinforced concrete and brick veneer. Thoroughly modern and up-to-date in structure, it is provided with the very best equipment for lighting, heating, and ventilation. No expense has been spared to supply the building with the latest educational facilities. In the high and well-lighted basement are two waiting rooms, two class rooms, the reading room and library, and the physical laboratory; connected with the basement, but in a separate building, is the chemical laboratory; on
the main floor are found the administrative offices, committee room, faculty room, biological laboratory, four lecture rooms, and the auditorium, with a seating capacity of seven hundred twenty-five people; on the second floor are ten lecture rooms and the balcony of the auditorium.

The dormitory is a modern building, completed in 1924, constructed of re-enforced concrete and brick vence and patterned after the main building. It is thoroughly fireproof and accommodates about eighty male students. Connected with the dormitory is a well-equipped dining room and kitchen. Students board in the dormitory and pay no more than cost price. Application for rooms in the dormitory should be sent to the Committee on Boarding Places and Dormitory.

A well-equipped gymnasium, also built in 1923-24, thoroughly modern in every respect, has been added for physical development and athletic activities for the students. The equipment comprises all the apparatus necessary to the latest and most approved physical exercise. Shower baths are provided for the use of the students. All physical instruction and athletic activities are under the supervision of the Committee on Athletics.

The library is daily open to the students. The books are catalogued according to the Dewey system. Card catalogues, which greatly increase the usefulness of the library, have been prepared. Owing to the liberality of Mrs. E. V. De Jong, the library is in possession of a handsome endowment fund, the interest of which is annually available for the purchase of books. A special gift of $1,000, received recently, makes a substantial addition to this year's allotment. There is still, however, great need of enlarging the library, and gifts in the form of extra books or money are highly welcome.

The physical laboratory, which is modern in every respect, contains ten laboratory tables, each accommodating four students. These tables are equipped with double gas cock, two nickel-plated electric plugs, adjustable metal uprights and cross bars, and four large drawers. In addition to these there are two balance tables, each long enough to support four scales, and two work tables fitted with double gas cock and pantry cock for hot and cold water and providing working space for several students at one time. Dust-proof apparatus cases fitted with glass doors, adjustable shelves, and capacious drawers, furnish ample room for
the storing and displaying of physical apparatus. A special
photometric room, containing an up-to-date photometry room
desk on which students perform experiments with optical benches
and photometers and a separate stock room for storing apparatus
and chemicals complete the physical laboratory. The physical
lecture room is provided with a stereopticon outfit.

The chemical laboratory is a separate building but connected
with the main structure. Three double chemistry desks, fitted
with double re-agent shelves, six double long spout gas cocks, and
an equal number of compression water cocks accommodate forty-
eight students working in sections of twenty-four. Four fume
hoods of practical construction and design and furnished with
stone sink and gas cock, have been installed. An electric exhaust
fan removes all obnoxious odors from the hood. Re-agent cases,
fitting with adjustable shelves, are conveniently placed so that the
student loses little time in walking back and forth to them. The
two balance tables are attached to the outside wall in order to
reduce vibration to a minimum. Their length allow the placing
of six balances, leaving sufficient working area around each.

The biological laboratory consists of the main laboratory, a
plant conservatory, a stock-room, and a private laboratory or dis-
secting room. It is well-lighted naturally by twelve windows on
the south and east sides, and artificially by electric lamps distrib-
uted throughout the rooms. The main laboratory contains ten
student tables, each furnished with an acid proof top, eight draw-
ers, and four microscope cupboards fitted with individual lock
and key; an instructor's demonstration table provided with gas,
electricity, water, and a stone sink; three cases for demonstra-
tion material and apparatus; a student's chemistry work table with
a re-agent shelf, overhead gas and water cocks, and a lead-lined
waste-water trough, and a stone sink; a student's preparation
supply table and cabinet; a copper gauze live cage with twelve
compartments for living terrestrial animals; three large Alberene
Stone and glass aquaria for living aquatic animals; and a hist-
ology table and cabinet furnished with electricity, gas, water, and
a stone sink for the staining and mounting of microscopic objects.
The plant conservatory is supplied with water and has a cement
floor with drainage opening for waste water. In it there is a
starting-table which has more than one hundred feet of lead-
lined, self-drained, germinating beds, and a soil bin of two com-
partments lined with galvanized iron. The stock room contains
four cases in which are stored apparatus, preserved plants and
animal material, chemical re-agents in bulk, charts, models, etc.
The teacher's private laboratory or dissecting room has also a
complete equipment.

Lectures. Occasionally outside speakers are invited to ad-
dress the students during the devotional exercises or in the even-
ing. In addition there is abundant opportunity for students to
avail themselves of lectures and addresses by men of note who
are invited to address different organizations of this city.

Maintenance and Endowments. For these the School is in-
debted largely to the kind and generous support of the members
of the Christian Reformed Church. From year to year, with the
growing of the church, the contributions have become larger and
have met the demands of the School, while it has in turn supplied
the church with pastors who have shown themselves pious and
active workers for the cause of Christ.

The interest accruing from an Endowment Fund of several
thousand dollars also contributes to the support of the School.
The College is greatly in need of a larger endowment, and be-
quests are, therefore, very welcome. Should there be any among
the friends of this school whom God has richly blessed with
means, may they remember that no money is so well invested as
that which is invested in an institution that gives young people a
Christian education, in souls and lives rather than in natural
things. The Church, the state, and society depend upon Christian
colleges and seminaries for leaders and workers; hence, money
expended for the support of such institutions is money spent for
the advancement of the Kingdom of God upon earth.

LEGAL FORM OF BEQUEST

I hereby give, devise, and bequeath unto Theological School
and Calvin College, a corporation organized and existing under
the laws of the State of Michigan, the sum of.................. Dollars,
to be paid out of any real or personal estate owned by me at my
decease.

STUDENT ORGANIZATIONS

ATHLETIC ASSOCIATION.—An organization that serves the
athletic interests of the College.

THE BLOTTTER.—An organization of male students to promote
literary interests.

CHIMES ASSOCIATION.—This association, composed of all stu-
dent subscribers, publishes Calvin College Chimes, a monthly that
serves as an organ for the literary expression of the life and the

— 18 —
ideals of the student body. During the fourteen years of its existence, this periodical has gained for itself an honorable record.

CHORAL CLUB.—This club, organized for the purpose of giving students instruction and practice in the art of singing, has already become well known for its renditions of the *Messiah* and *Elijah*.

GIRLS’ CHRISTIAN FELLOWSHIP CLUB.—This club exists for the purpose of fostering real Christian fellowship among its members.

GIRLS’ LITERARY SOCIETY.—The young women of the College maintain a literary society of their own.

MEN’S GLEE CLUB.—This club is composed of twelve male voices, and is trained by the Director of Music. By its acceptable singing this organization has become a favorite with the public.

NIL NISI VERUM.—This group of kindred spirits meets every two weeks in the homes of its members and has for its purpose the cultivation of an interest in the study of “the truth and nothing but the truth.”

ORCHESTRA.—A number of male students have recently organized an orchestra.

PLATO CLUB.—This club meets fortnightly for the study of the philosophy of Plato.

PHYTOZOOOM.—To satisfy the increasing demand for discussion of special topics in biology, the students have organized a society which, under the leadership of its faculty director, has become one of the most popular as well as instructive organizations in the school.

RELIGIOUS CLUB.—An organization of male students meeting for the purpose of thoroughly grounding themselves in Reformed principles and their application.

STUDENT VOLUNTEER BAND.—An organization maintained by those students who are specially interested in the cause of missions. Special study is made of missionary history and practice.

WOMEN’S GLEE CLUB.—The Women’s Glee Club consists of twenty-four voices under the direction of the Director of Music.

ALUMNI ASSOCIATION

The Alumni Association, composed of the graduates of both Seminary and College, aims to promote the interests of both Alma Mater and alumni. After a period of inactivity this association has in the last years given evidence of new life and promises to be a real force in fostering the interests of the school.

TUITION, FEES, AND LIVING EXPENSES

The tuition fee is $25.00 per semester; for two from the same family, $16.50 each; no further reduction is made in case more than two from the same family attend. Further, those living west of the Mississippi and east of Ohio, will be required to pay only one-half of this amount; while those coming from Montana, Wyoming, Colorado, New Mexico, and points west of these states, will be permitted to attend free of charge. The tuition fee must be paid to the treasurer on the day of registration in September and in February. A fee of one dollar will be charged for late registration.

In some laboratory courses an extra fee will be charged to cover cost of material, wear and tear of instruments, etc. The laboratory fees must be paid before the corresponding courses are begun. See description of these courses for the amount of fees.

A diploma fee of five dollars is charged at the completion of any College Course. This fee must be paid before admission to the final examinations.

Board and room, fuel and light, are furnished at the Dormitory for six dollars a week and upward.

Expenses, including board, room rent, fuel, light, washing, and text books, are from three hundred dollars up.

Board in private families will cost from seven to nine dollars a week.

A city such as Grand Rapids offers splendid opportunities for self-support, especially for young women who desire to work for their room and board.

DIPLOMAS AND CERTIFICATES

The School issues diplomas as follows:

To those who have finished the required number of hours of work in the College.

To those who have finished the Three-Year Pre-Seminary Course.

To those who have finished the Three-Year Pre-Seminary Course and three years of Theology.

To those who have finished the Normal Course.

No diploma will be granted for less than one year’s resident work, which ordinarily must be the year immediately preceding the granting of the diploma.

When no full course is completed, a statement is given of the studies in which the student passed examination.
STATE TEACHER'S CERTIFICATE
Seniors who are entitled to the A. B. degree and who have completed for the present at least eleven hours in the department of education and the required courses in the subject of their preference, will be recommended for a State Teacher's Certificate. The securing of a Life Certificate requires three years of successful teaching.

SCHOLARSHIPS AND PRIZES
University of Michigan State College Fellowship.—The following is taken from the Catalogue of the University of Michigan:

"By action of the Board of Regents each of the faculties of the accredited colleges of the State of Michigan is authorized to nominate each year to the administration office of the Graduate School some member of the graduating class or some one of their graduates of not more than four years standing as a suitable candidate for a State College fellowship or scholarship. An alternate may also be nominated in each instance."

Students wishing to make application for this fellowship should consult the Registrar of Calvin College not later than February 1.

Rhodes Scholarship.—Male students in the junior and senior years may apply for nomination to the Cecil Rhodes Scholarship. This scholarship, tenable for three years, carries an annual honorarium of at least $1,500.00, for study at Oxford. Students wishing to compete should consult the Registrar before October 1, 1925.

For detailed information address Mr. James K. Watkins, 923 Ford Bldg., Detroit, Mich.

Broodman Oratorical Prize.—Through the generosity of Dr. G. J. Broodman of Grand Rapids, Michigan, gold, silver, and bronze medals are given annually to the winners of the first, second, and third prizes, respectively, in an Oratorical Contest.

Broodman Trophy for Interclass Debating.—Dr. G. J. Broodman also offers a silver cup to be awarded to the winning team in the Interclass Debating Contest.

Hoffius Prize.—Mr. C. Hoffius, former prosecuting attorney of Kent County, Michigan, has given to the College $200.00 from which prizes are to be given annually to the student doing the best work in some subject specifically included in the Pre-Law Course. Freshmen and all Pre-Seminary students are not eligible.

Rozeboom Prize.—Mr. W. G. Rozeboom of Paterson, New Jersey, has given to the College $25.00 as a prize for the Freshman doing the best work in History.

RELIGIOUS CULTURE
All students are obliged to attend the devotional exercises held in the auditorium at 9:40 A. M. Religious instruction, either doctrinal or historical, is compulsory for all classes.

On the Sabbath every student is supposed to worship regularly with some church of his own selection.

Every student is visited by some professor at least once in a school year. The object of this visit is not only to speak with the student about methods of study, difficulties encountered in the work, habits of living, but especially to be a help to him in his spiritual life. The College believes that the religious as well as the intellectual side of a student's life should receive due attention.

PHYSICAL EDUCATION
Every Freshman and Sophomore student is required to take two hours of gymnastics or physical education per week. No credit is given for this work.

DROPPING AND CHANGING OF COURSES
After a student has enrolled for a study, he may not drop it without permission from the Dean; neither may he change his course of study without such permission.

EXAMINATIONS, GRADES, CONDITIONS
The examinations are held at the close of the first and second semesters. A literal system is used in grading the work, as follows:

<table>
<thead>
<tr>
<th>Grade</th>
<th>Interpretation</th>
<th>Equivalent Honor Points</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>Exceptional</td>
<td>3</td>
</tr>
<tr>
<td>B</td>
<td>Good or very good</td>
<td>2</td>
</tr>
<tr>
<td>C</td>
<td>Graduation average</td>
<td>1</td>
</tr>
<tr>
<td>D</td>
<td>Unsatisfactory; just passable</td>
<td>0</td>
</tr>
<tr>
<td>E</td>
<td>Condition, which may be removed at a re-examination</td>
<td>-1</td>
</tr>
<tr>
<td>F</td>
<td>Failure. No re-examination</td>
<td>-2</td>
</tr>
<tr>
<td>Inc.</td>
<td>Work not completed</td>
<td></td>
</tr>
</tbody>
</table>

This means that a student can graduate from the College with 125 honor points to his credit; that is, he can get his diploma when he has a C in all his studies, or an average of C. Such
average is to be computed by multiplying the number of honor points of each study by the number of hours devoted to that subject per week, and by dividing the result so ascertained by the total hours taken by the student.

Conditions received in January, as well as in June, may be removed only at the supplementary examination held for that purpose on the first Tuesday and Wednesday after the Spring vacation, or on the first Friday and Saturday of the school year. A student whose grade is “E” is allowed one re-examination on the work of the course, for which he receives credit if the re-examination is passed with a grade of “C” or better. If a student fails to remove his condition at the re-examination immediately following the time when the condition was received, the subject will have to be repeated for credit.

An “Incomplete” must be removed within a year. At the end of a year an unremoved “Incomplete” becomes an “F”.

Any student whose grade is “F” may obtain credit for the course only by repeating it in class.

What course is to be pursued in the case of a student who is not prepared for more advanced work is to be determined jointly by the Dean and the instructor of the subject.

Report cards are sent out at the end of each semester.

DISMISSAL

Students are amenable to the regulations of the school from the time of their arrival. As soon as a student’s conduct becomes detrimental to his own or the school’s best interest, the Faculty will suspend him after due warning, and, in case no improvement results, the withdrawal of such a student may be required.

TERMS AND VACATIONS

The school year of thirty-six weeks is divided into two semesters of eighteen weeks each.

Two vacations are given during the year: A vacation of two weeks at the Christmas holidays, and a spring vacation of one week. Students are required to remain on duty until the last school exercise preceding a vacation is completed, and to be present at the hour of opening, after a vacation.

PLACEMENT BUREAU

A Placement Bureau which will effect the placing of prospective teachers, graduates from Calvin College (including the Normal Department), has been established. This Bureau keeps on file a list both of vacancies in the teaching forces in our Christian Schools throughout the country and of graduates who desire to teach. All correspondence for the Bureau should be addressed to: Placement Bureau, Calvin College.

The services are given without charge.

REQUIREMENTS FOR ADMISSION

Applicants for admission are accepted on the presentation of a certificate from an accredited school. All applicants must, however, present a satisfactory written testimonial of good moral conduct. Those who intend to study for the ministry must, in addition, present a recommendation from their consistory.

All certificates and testimonials must be presented to the Registrar on or before the day of registration.

The regular time for admission is at the beginning of the school year in September, and at the beginning of the second semester in January. During the school year, however, the Faculty has the right to accept students that meet the requirements.

PRESCRIBED UNITS

For admission, 15 units are necessary. Certain of these units are prescribed, as follows:

For Admission to the General College Course, to the Pre-Law Course, and to the Course leading to an A.B. in Education, 9 units prescribed:

**GROUP II.** (Two units may be chosen from this group).

This group comprises any subjects not included in Group I, which are counted towards graduation by the accredited school.

**PROVISIONAL ADMISSION**

An applicant for admission either on examination or certificate, who presents 15 units from the list given, but who is deficient in not more than 1 of the 13 units from Group I, may be admitted provisionally; but this deficiency must be made up during the first year of residence.

**ADMISSION WITH ADVANCED CREDITS**

Advanced credit is granted only for studies equivalent to courses offered in our college, and in accordance with the following regulations:

Advanced credit for work taken in an accredited High School will be given only to such applicants as can offer at least 16 units for admission to College, but advanced credit for such work will not be given in excess of 10 college semester hours. Moreover, a study in which advanced credit is sought must be successfully continued for at least one semester in the College.

In any other case, the applicant must pass a satisfactory ex-

* A single unit of a foreign language may be counted among the thirteen from Group I upon the satisfactory completion in the College of a second course in the same language.

---

Students expecting advanced credit for work done at other institutions should bring full credentials.

**UNCLASSIFIED STUDENTS**

Students who are not candidates for graduation may, in as far as the schedule of recitation allows, take such studies as their preparation qualifies them to pursue with profit. Bible Study, however, must be taken by every student.

**INFORMATION**

The President will be glad to furnish all possible information with reference to the College. Those desiring private boarding places should apply to Professor Ryskamp. Correspondence is cordially invited.
OUTLINES OF COURSES

GENERAL COLLEGE COURSE

Students who enroll in the General College Course must complete 125 hours* of work for the A. B. degree.

These 125 hours must be distributed according to the group system indicated below.

Of the 125 hours thus distributed, those indicated in the next section are prescribed.

Distribution of the Total 125 Hours According to Group Restrictions—

Group I. Ancient Languages and Literatures, Modern Languages and Literatures, English, Public Speaking.

Group II. Mathematics, Physics, Chemistry, Zoology, Botany, and Psychology.

Group III. History, Economics, Sociology, Political Science, Philosophy, Education, and Logic.

Restrictions:

1. Each student must choose a major and a minor group. In his major group he must take four semester courses of three hours each, in two departments. In his minor group he must take four semester courses of three hours each, in one department.

* An hour of credit is given when a study has been satisfactorily pursued with one recitation per week for one semester.

† Introduction to the Bible, 4 hours; Reformed Doctrine, 4 hours; Studies in Calvinism, 2 hours.

** German or French, 12 hours. If preceded by High School units, this number may be reduced in the proportion of 3 hours for every unit. Every student, however, is required to take in the College at least 6 hours of either German or French.

2. The maximum number of hours which a student may take within a department is forty; the minimum is twenty-four for the major group and twenty for the minor group.

By department is meant a study as outlined under "Description of Courses", pages 34 to 59.

PRE-SEMINARY COURSE (1923–24)*

The completion of this course entitles the student to the A. B. degree. The course as here outlined will be discontinued after June, 1927.

Of the remaining 13 hours (Electives), at least 6 must be taken in a subject in which the student has already had 12 hours of work. In case students cannot present the number of hours of High School subjects required for admission to this course, such deficiency cannot be met by applying any of the 13 hours of electives.

Orations will be required from Pre-Seminary students in accordance with arrangements to be made by the Faculty.

CHEMISTRY
PROFESSOR DEKKER

1. General Inorganic Chemistry Four hours
Three hours in class-room, lectures, quizzes and laboratory discussion and one laboratory period of from three to four hours per week.
Laboratory fee, $2.50. Breakage fee, $2.50.
Prerequisite: High School Chemistry.

2. General Inorganic Chemistry Four hours
Continuation of Course 1. Hours, text, and fees the same.

1B. General Inorganic Chemistry Four hours
Three hours in class-room, lectures, quizzes and labora-tory discussion and one laboratory period of from three to four hours per week.
Laboratory fee, $2.50. Breakage fee, $2.50.
Prerequisite: No previous training in Chemistry re-quired, but student should have knowledge of Physics.

2B. General Inorganic Chemistry Four hours
Continuation of Course 1B. Hours, text, and fees the same.

3. Qualitative Analysis Four hours*
Three hours in the class-room and one laboratory period of not less than four hours per week.
Laboratory fee, $2.50. Breakage fee, $2.50.
This course deals with principles underlying analytic processes and with reactions and qualitative analytic methods.
Prerequisite: Courses 1 and 2 or 1B and 2B.

* Five hours will be arranged for engineering students.
4. **Organic Chemistry**  
*Four hours*
Three recitations and one laboratory period of four hours per week.
Laboratory fee, $2.50. Breakage fee, $2.50.
This course is required of all students who elect the Pre-
Medical Course.
Prerequisites: Courses 1 and 2 or 1B and 2B.

5. **Quantitative Analysis**  
*Four hours*
Two hours in the class-room and from six to eight hours of laboratory work per week.
Laboratory fee, $3.00. Breakage fee, $3.00.
This course emphasizes the quantitative application of the principles of Analytic Chemistry and gives training in quantitative methods and technique.
Prerequisite: Course 3.

*Five hours will be arranged for engineering students.

**DUTCH STUDIES**

**PROFESSOR VAN ANDEL**

11. **Elementary Grammar**  
*Four hours*
Conjugations and declensions. Required outside reading.

12. **Advanced Grammar**  
*Four hours*
Review of preceding course. Syntax. Required outside reading. In class some Dutch works are read.

15. **Romanticism**  
*Three hours*
Review of grammar. Weekly compositions. Required outside reading. In class some outstanding Romantic authors are discussed. Special study is made of Bilderdijk and Da Costa as originators of the revival of Calvinism in the Netherlands.

16. **Realism**  
*Three hours*
Weekly compositions. Required outside reading. In class some important Realistic authors are discussed.

17. **Renaissance**  
*Three hours*
The Middle Ages, the Early Renaissance, and the "Golden Age". The aim of this course is to bring out the bearing which Catholicism, Humanism, and Calvinism had on Dutch Literature. Assigned reading and monthly essays.

---

18. **Modern Literature**

**ECONOMICS AND SOCIOLOGY**

**PROFESSOR RYSKAMP**

The courses in Economics and Sociology are considered as belonging to one department. To avoid confusion in enrolling, the student will please indicate carefully both the number and the name of the course desired.

Freshmen intending to major in this department are advised to begin with Courses 1 and 2, introductory to both Economics and Sociology.
1. (Economics) Human and Economic Geography  
   Three hours  
   A study of man's adaptation to his physical environment; with emphasis on the resources of the several economic regions of the world and their effects upon man's habits, industries, trade relations, methods and lines of transportation, and so forth. Intended for those particularly interested in the social sciences and for those taking the Normal Course. A Freshman course.

2. (Sociology) Introduction to Sociology  
   Three hours  
   A continuation of Course 1. An historical introduction to social economy and to the modern social problem, including a statement of the problems of modern social life.

3. Principles of Economics  
   Three hours  
   A review of the fundamental principles underlying modern economic life. Not open to Freshmen, except by special permission.

4. Principles of Economics  
   Three hours  
   A continuation of the principles of political economy and an application of the same to current industrial problems and institutions. Students electing Course 3 are expected to take Course 4.

5. The Principles of Sociology  
   Three hours  
   A study of the underlying principles of social science: the individual in society, the social mind, social organization, and so forth. Not open to Freshmen, except by special permission.

6. Principles and Problems of Sociology  
   Three hours  
   A continuation of Course 5 with a further application of the principles to the outstanding social institutions; including a discussion of the problems arising out of the breaking down of these institutions.

7. (Economics) The Financial Organization of Society  
   Three hours  
   A study of the nature and functions of money, with a view to the understanding of the complex role of currency systems in our national and international life. A detailed study of the functions of banking, the Federal Reserve, private financial institutions, foreign trade, the financial promotion of corporations and of trusts, the trust problem, and so forth. Prerequisite: Courses 3 and 4 or their equivalents.

8. (Economics) The Financial Organization of Society  
   Three hours  
   A continuation of Course 7.

9. (Economics) Labor Problems and Trade Unionism  
   Three hours  
   The historical background of the modern labor movement, the controversies between capital and labor, and the various solutions offered. A careful study of the history, nature, and problems of trade unionism. Prerequisite: Courses 3 and 4, or 5 and 6.

10. (Sociology) Advanced Social Theory  
    Two or Three hours  
    This course may be adapted to suit the needs of the student. It will, however, include some review of the history of social thought. Prerequisite: Courses 5 and 6.

EDUCATION

PROFESSOR J. BROEN

1. Introductory Psychology  
   Three hours  
   A first course with some reference to the implications of psychology for pedagogy.

2. Genetic Psychology  
   Three hours  
   Course 1 or its equivalent is a prerequisite.

3. Principles of Education  
   Three hours  
   A study of the aim of education and of the various underlying problems.

4. The Practice of Education  
   Three hours  
   This course deals with the teaching process and with problems pertaining to class management.

5. History of Education  
   Three hours  
   A survey of the growth of educational theory and practice during the ancient and medieval periods.
6. **History of Education**  
   *Three hours*  
   A continuation of Course 5 covering the modern period.

7. **School Administration**

Courses Taught by Mr. Van Zyl

1. Methods of Teaching—General  
Five hours  
Five units of work will be presented; viz., characteristics of methods, aims and objectives of education in elementary schools, individual differences, curriculum adjustments to meet these differences, and controlling principles of the Public School and the Christian School in the United States. Required text: Parker’s General Methods and Principles of Teaching.

2. Methods of Teaching—Specific  
Five hours  
The main emphasis will fall on the teaching of reading, Bible history, United States history, geography, composition, and arithmetic. Required texts: Parker’s Types of Teaching and Learning in Elementary School, and Freeman’s Psychology of Elementary School Subjects.

3 and 4. General Technique  
Two hours  
One hour throughout the school year; it can be taken either or both semesters. Lectures will be given on the distinctive features of the elementary school, control technique, mastery notion, language arts types of teaching, pure practice type, science type, number work, and language usages. No text required. The students give written reports from time to time.

5. Penmanship  
One hour  
Both blackboard writing and penmanship, and theory as well as practice are given during one hour per week in the first semester only. The Freeman system is used.

6. Drawing  
One hour  
One hour per week during second semester only. As in penmanship both seatwork and blackboard drawing are practiced in connection with Lederer and Smith’s Course in Drawing. The theory is treated in the required text: Sargent and Miller’s book on Drawing in the Elementary School.

8. Observation Work  
Three hours  
This is carried on for three hours per week during the first semester. Definite instructions are given as to the type of observation to be made. The fourth hour is devoted to a consultation with the instructor regarding the work to be done.

8. Practice Teaching. See the following regulations:

a) Practice teaching done in the past in connection with courses of education in Calvin in the Preparatory Department can not be accepted for exemption.
b) Three hours per week are required for practice teaching in the Practice School, plus one hour per week for consultation with the normal instructor at Calvin. The students discuss with him any phase of the work.

About twenty lessons or more should be taught by the student-teacher himself.

A grade C or better is needed in this work for graduation. The final standing is to be determined by the instructor at Calvin College after conference with the principal of the Practice School.

c) The supervision of practice teaching, insofar as the Practice School is concerned, is in the hands of the principal there. This supervision includes:

1) Supervision of the amount of time the student-teacher spends in the Practice School.

2) Supervision of the quality of work done.

d) In order to make the Practice Teaching a joint affair of the Practice School staff and the student-teachers, each member of the staff and each student-teacher is to use a manual such as “The Observation Record Book in the Study of Teaching” by Landisettel. Copies will be furnished to the teachers of the Practice School by Calvin College, with which property rights are to remain.

A united effort in the study of teaching with one basic text as a standardizing agency can not but benefit all. A serious use of so rich a text with direct, clear, and most suggestive material is deemed necessary.

e) The normal instructor in the consultation with his students will, of course, act as departmental advisor.

f) Students who can furnish satisfactory evidence that they have had successful experience as teachers may be permitted to substitute courses in the Department of Education.

Students may be tested for exemption by assignment to three weeks of non-credit teaching.

g) No partial exemption is allowed. Take all of the (72) hours of Practice Teaching or none, and substitute other courses for it in the latter case.

10. **English Grammar**

GENERAL INFORMATION

Opening.—The school-year of 1925-'26 begins the second week in September. On Wednesday, September 9, 1925, all new students must present themselves for matriculation. The formal opening of the Seminary occurs in the afternoon of Thursday, September 10.

Admission.—Every person who wishes to matriculate as a student of the Seminary must present the following to the Faculty at its meeting held on the day previous to the opening of the School:

1. A written testimonial from his consistory, showing that he is a church member in full communion and in good standing.
2. A testimonial from the Board of Trustees to the effect that he has successfully passed the examination of the Board as to his spiritual fitness for the ministry.
3. A diploma or a statement of credits, showing that he is a graduate of the Pre-Seminary Course of the Theological School and Calvin College, or has completed a similar course of study elsewhere. Those who cannot present a diploma of the Pre-Seminary Course of the Theological School and Calvin College are required to present a statement of their college credits. Such credits must be in the hands of the Registrar before August 1.
4. In addition to this, students from other schools must furnish proof that they have the two units of High School German to their credit which are required for admission to the Pre-Seminary Course of Calvin College.

Registration.—All students of the Seminary are required to register at the office of the Institution on the opening day of the School and again at the beginning of the second semester, on the first day after the last examination. Tuition must be paid on the day of registration. Deferred payment can be granted by the Rector only on that day for a period not exceeding one month. Students who fail to pay on the day of registration or on the date stipulated for them, will have to pay a fee of one dollar. The penalty of coming late, except in cases of sickness, is the deduction of two per cent from the final average standing in any given subject for every recitation or lecture from which delinquent is absent.

Tuition.—No matriculation fees are charged. The tuition is fifty dollars a year, to be paid in two instalments. It must be paid to the treasurer on the day of registration in September and January. For those living West of the Mississippi or East of the Ohio, tuition is only twenty-five dollars per year. Students from Montana, Wyoming, Colorado, New Mexico, and from points West of these states, have free tuition.

Examinations.—Written examinations are held at the close of both the first and the second semester. By a ruling of the Synod of 1920 the Theological Faculty henceforth decides on the promotion and graduation of Seminary students.

Graduation.—Upon completing the prescribed course of study of three years, graduates are awarded a diploma. The graduation fee is ten dollars and must be paid before the final examinations are taken.

"Krans".—This is a gathering of the students in Theology, occurring twice a week, at which the professors of the Seminary preside in rotation. The exercises consist of the delivery and criticism of sermons, and have for their purpose the supplementing of the courses in Practical Theology.

Preaching of Students.—No student of the College or of the first year in Theology is permitted to preach. This privilege is granted under certain restrictions only to members of the second and third class in Theology. Students of the first class who desire this privilege must, at the end of the year, appear before the Board of Trustees to be examined for licensure. If they are not present for the examination, they shall not be permitted to preach in our churches until the following spring, after they have been examined by "Curatorium Contractum".
"Corps"—The students of the Seminary maintain an organization called "Corps", its aim being to promote propriety of conduct and manners, to cultivate Christian character, and to foster scientific and literary effort.

Information.—For further information apply to the Rector, Prof. W. Heyns, 1319 Sigsbee St., SE., Grand Rapids, Mich.

All correspondence pertaining to matters of admission and credits must be addressed to the Registrar, Prof. M. J. Wymengaarden, 1116 Bates St., SE., Grand Rapids, Mich.

COURSES OF STUDY

OLD TESTAMENT

PROFESSOR WYNGAARDEN

Introduction to the Pentateuch.—A general introduction to the canonical Scriptures of the Old Testament is here given, taking up the canon and the text. The special introduction to the Pentateuch includes its contents, authorship, composition, history, purpose, inspiration, and canonical significance. Lectures; discussions; collateral reading from Kuyper's "Encyclopaedia of Sacred Theology", on Canonics; Orr's "The Problem of the Old Testament"; Raven's "Old Testament Introduction"; and Kyle's "The Problem of the Pentateuch, a New Solution, by Archæological Methods".

For all classes. Two hours. Second semester, 1924-'25.

Introduction to the Prophets.—Lectures on prophecy, in general, as well as on the individual books; supplemented by collateral reading from Raven's "Old Testament Introduction"; and Orr's "The Problem of the Old Testament".

For all classes. Two hours. Second semester, 1925-'26.

Introduction to the Kethubhim.—

For all classes. Two hours. One semester. Not given in 1925-'26.

Hebrew I.—The first year is devoted to the careful study of Harper's "Method and Manual", and the "Elements of Hebrew", as revised by J. M. Powis Smith.

For Juniors. Three hours. Both semesters. Given every year.

Hebrew II.—Davidson's "Hebrew Grammar" is studied, and portions of the prophetic and historical books are read, for the purpose of acquiring a more extended vocabulary, and familiarity with the principles of syntax, as they are illustrated in the text. This is supplemented by a more systematic presentation of these principles, as found in Harper's "Hebrew Syntax".

For Middlers. Two hours. Both semesters. Given every year.

Sacred History from King Saul to the Fall of Jerusalem.—Lectures and discussions on the more important subjects and problems. The import of events in the history of revelation is
carefully noted. Collateral reading from Sillevis Smitt’s “Handboek der Heilige Geschiedenis”; and, especially for the Assyrian inscriptions that illuminate the history, Barton’s “Archaeology and the Bible”; and Noordtzij’s “Gods Woord en der Eeuwen Getuigenis”. The course presupposes familiarity with the main facts of the Old Testament record.

For all classes. Two hours. First semester, 1924-'25.

Sacred History from the Exile to Malachi.—Lectures; supplemented by collateral reading from Sillevis Smitt’s “Handboek der Heilige Geschiedenis”; Barton’s “Archaeology and the Bible”; and Noordtzij’s “Gods Woord en der Eeuwen Getuigenis”.

For all classes. Two hours. First semester, 1925-'26.

Sacred History from the Creation through the Period of the Judges.—

For all classes. Two hours. One semester. Not given in 1925-'26.

Exegesis.—Interpretation of selected Messianic prophecies from Isaiah and from some of the Minor Prophets. Throughout the course emphasis is laid upon the application of strictly scientific methods in exegetical study.

For all classes. One hour. Both semesters. Given every year.

NEW TESTAMENT
PROFESSOR BERKHOF

Introduction to the Gospels.—A discussion of the characteristics, authorship and composition of the Gospels, with particular reference to the most important critical questions. Special attention is paid to the Synoptic and Johannine problems. Text, Lectures, and Collateral Reading.

For all classes. Two hours. First semester, 1924-'25.

Introduction to the Pauline Epistles.—A study of the characteristics, authorship and composition of the Epistles of Paul, comprising a discussion of the historico-critical questions involved. More detailed consideration of some special problems presented by the Pauline literature. Text, Lectures, and Collateral Reading.

For all classes. Two hours. First semester, 1925-'26.

Introduction to Hebrews, the General Epistles, and the Apocalypse.—An inquiry into the characteristics, authorship and composi-
HISTORICAL THEOLOGY
PROFESSOR VOLBEDA

Prolegomena of the Science of Church History.—Emphasis is laid upon the Reformed conception of Church history with a view to facilitating the understanding of the facts, and the religious evaluation of the main movements, of the church of Christ in the entire post-revelation period.

For all classes. Two hours. First semester, 1925-'26.

Ancient Church History.—In this course special study is made of: the religious and cultural situation in the Graeco-Roman world during the period of the planting of the Christian Church; the relation of Jewish and Gentile Christianity; the facts and factors of the dogmatical labors of the church; the constitutional and liturgical development of the church; the spread of Christianity; the significance of the ecclesiastical policy of the Christian emperors; the meaning of the rise and progress of monasticism. Lectures; tests in a prescribed text; collateral reading and theses.

For all classes. Two hours. Second semester, 1925-'26.

Mediaeval Church History.—In this course special attention is given to: the Mohammedan menace; the growth, cherished ideals, and ecclesiastical significance of the institution of the papacy; mediaeval missions, their character and achievements; the changing fortunes of monasticism; scholasticism, its rise, progress, and theological importance; the decay of Romanism and the changing world of post-crusade times. Lectures; tests in a prescribed text; collateral reading and theses.

For all classes. Two hours. Both semesters, 1926-'27.

Modern Church History.—In this course the following subjects receive special attention: The Reformation, its rise, progress, and decline; its relation to pre- and post-reformation times respectively, and its religious, ecclesiastical, theological, and cultural significance; eighteenth century Christianity, its genesis and genius; nineteenth century Christianity, religious revival, theological modernism, cultural problems; ecumenical Calvinism. Lectures; tests in a prescribed text; collateral reading and theses.

For all classes. Two hours. Both semesters, 1924-'25.

American Church History.—In this course special study is made of: the European background of American Christianity; the planting of the American church during the colonial era; the growth, spread, and vicissitudes of the American church during the national era. Lectures; tests in a prescribed text; collateral reading and theses.

For Middlers. Two hours. Both semesters. Given every year.

History of the Christian Reformed Church.—This course aims at acquainting our prospective ministers with the main facts of the history, the spirit and traditions, and the religious and theological ideals of the church which they wish to serve in the gospel. A knowledge of these matters is deemed essential for the efficient and acceptable discharge of ministerial duty in the church of our choice and love. Lectures; tests in a prescribed text.

For Seniors. Two hours. First semester. Given every year.

Missionary Science.—Under this head are comprised four distinct courses. The work in all of them is carried on by lectures, tests in a prescribed text, collateral readings and theses. The four courses are the following:

1. Prolegomena of the Science of Missions.
   For Seniors. Two hours. Second semester, 1924-'25.

2. The Doctrine (Dogma) of Missions.—In the absence, quite generally, of due regard for the dogma of missions, and with a view to the preponderance of interest in the historical and practical aspects of missions, the doctrine of missions is somewhat emphasized.

3. The History of Missions.—The ancient, mediaeval, and modern periods. The facts are not only reviewed, but also evaluated upon the basis of the biblical concept of the church in general and of missions in particular. Missionary biography receives special attention.
   For Seniors. Two hours. Second semester, 1926-'27.

4. The Theory of Missionary Work.—This applies to missionary work both at home and in the field.

SYSTEMATIC THEOLOGY
PROFESSOR BOUMA

Theological Encyclopedia.—This course seeks to introduce the student into the field of theology as a whole. The presuppositions, the distinctive character, and the object of theology as a science. The history, methods, and fundamental principles ap-
plied in the various phases of theological study. Special emphasis is laid on a criticism of prevalent principles and methods in theological science.

Lectures, assigned reading, discussions and quizzes.

For Juniors. Two hours. Both semesters. Given every year.

History of Doctrine.—The development of Christian doctrinal thought throughout the ancient, mediaeval, and modern periods. The outstanding theological systems; the rise and decline of schools of theological thought; the doctrinal controversies; the history and significance of the great creedal deliverances. Especial emphasis is placed on Augustinianism, the Reformation, Calvin, and the history of Reformed Theology.

Lectures, assigned reading, quizzes.

For Juniors. Three hours. First semester. Given every year.

Prolegomena to Dogmatics.—This course deals with the fundamental principles underlying systematic theology. Religion and theology; the finality of the Christian religion. Theology and dogma; divine cogniscibility; Agnosticim and dogma. Faith and reason; faith and its certainty; faith and revelation. Revelation and religious experience; revelation and the Scriptures; revelation and inspiration. Orthodoxy and Modernism. The confessional character of dogmatics. Dogma and progress.

Lectures, assigned reading, discussions and quizzes.

For Juniors. Three hours. Second semester. Given every year.

Dogmatics.—The course in Dogmatics comprises four parts, to each of which a semester is devoted. In this way the entire field is covered in two years. The work is carried on by lectures. As collateral reading Bavinck's *Gereformeerde Dogmatiek* is required. Regular quizzes and occasional discussions are held.

The four courses are the following:

For Seniors and Middlers. Four hours. First semester, 1925-'26.

For Seniors and Middlers. Four hours. First semester, 1924-'25.

For Seniors and Middlers. Four hours. Second semester, 1924-'25.

Lectures, assigned reading, discussions and quizzes. A thesis required.

For Seniors. Two hours. Both semesters. Given every year.
PRACTICAL THEOLOGY

PROFESSOR HEYNS

History of Preaching. A presentation of the outstanding figures in the history of Christian pulpit eloquence and their methods of preaching. Selections from masterpieces are read.

For Juniors. Two hours. First semester. Given every year.

Homiletics. The principles to be observed in order that preaching may truly be ministration of the Word; the demands of rhetoric in the composition and delivery of a sermon; exercises in analyzing texts and in making and criticizing sermon outlines.

For Juniors. Two hours. Second semester. Given every year.

(Note: Besides these two hours for Juniors, three hours a week are devoted by all classes combined to the delivery and criticism of sermons.)

Catechetics. History, character, subject-matter, and methods of catechetical instruction.

For Middlers and Seniors. One hour. Both semesters, 1925-'26.

Liturgics. Historical study of the forms of Christian worship in different periods; public worship and the principles according to which it should be conducted.

For Middlers and Seniors. One hour. Both semesters, 1925-'26.

Poimenics. Study of the pastoral work required by the Holy Scriptures of the minister of the Word; his conduct in family visitation, in visitation of the sick, and in special cases.

For Middlers and Seniors. One hour. Both semesters, 1925-'26.

Church Polity and Church Government. Study of the essential features, biblical basis, and historical development of the Presbyterian synodical system of church polity; discussion of the Church Order of the Christian Reformed Church and its amendments with suggestions relative to their application in practice.

For Middlers and Seniors. Three hours. Both semesters, 1924-'25.
