

CALVIN  
College

2003  
COMMENCEMENT

*Saturday*  
*May Twenty-four*  
*Three O'Clock*

## NOW THANK WE ALL OUR GOD

*Martin Rinkart*

*Johann Cruger*

Now thank we all our God with heart and hands and voices,  
who wondrous things has done, in whom his world rejoices;  
who from our mothers' arms has blessed us on our way  
with countless gifts of love, and still is ours today.

O may this bounteous God through all our life be near us,  
with ever joyful hearts and blessed peace to cheer us,  
to keep us in his grace, and guide us when perplexed,  
and free us from all ills of this world in the next.

All praise and thanks to God the Father now be given,  
the Son and Spirit blest, who reign in highest heaven;  
the one eternal God, whom heaven and earth adore;  
for thus it was, is now, and shall be evermore.

## THE CALVIN ALMA MATER

*Dale Grotenhuis*

*Celia Bruinooge*

Calvin, Calvin, sing we all to thee,  
To dear Alma Mater we pledge fidelity.  
Forever faithful to maroon and gold,  
Thy name and honor we ever shall uphold.

Calvin, Calvin, God has been thy guide;  
Dear Alma Mater, thy strength He shall provide.  
Be loyal ever to the faith of old.  
God's name and honor we ever shall uphold.

# ORDER OF COMMENCEMENT

<b>Prelude:</b>	<i>Flourish for Wind Band</i>	Ralph Vaughan Williams
<b>Processional:</b>	<i>Sine Nomine</i>	Ralph Vaughan Williams
	<i>Pomp and Circumstance March No. 1</i>	Edward Elgar
	Calvin College Band, Derald De Young, Ph.D., Conductor Performing in the Fine Arts Center	
<b>*Opening Hymn:</b>	<i>Now Thank We All Our God</i>	
<b>*Invocation:</b>	Milton Kuyers, M.B.A., Chair, Calvin College Board of Trustees	
<b>Introduction of Commencement Speaker:</b>	Gaylen J. Byker, Ph.D., President	
<b>Commencement Address:</b>	"A Road Map for Life" John M. Perkins, L.L.D., D.D., Ed.D., et al. (H.C.) President, John M. Perkins Foundation for Reconciliation and Development	
<b>Presentation of Awards:</b>	Craig A. De Witt, Ph.D., President, Calvin Alumni Association, to Robert P. Swierenga, Ph.D., Class of 1957 and to Paul A. Vanden Bout, Ph.D., Class of 1961, Distinguished Alumni	
<b>Remarks on Behalf of the Senior Class:</b>	Elizabeth A. Cooper, Student Senate President	
<b>*Litany for Commencement</b>		
<b>Conferring of Degrees:</b>	Joel A. Carpenter, Ph.D., Provost, and Gaylen J. Byker, Ph.D., President	
<b>Presentation of Diplomas</b>		
<b>*The Calvin Alma Mater</b>		
<b>†Recessional:</b>	<i>New Mexico March</i>	John Philip Sousa
	<i>March from "Suite in E Flat"</i>	Gustav Holst

\* Audience standing

† The audience is requested to be seated until the faculty and graduates have exited.

*The commencement ceremony is being professionally videotaped and photographed. Each graduate will have an opportunity to purchase videotapes and photographs of the event. Thus, we ask that friends of the graduates keep walkways clear for the camera crews.*

## LITANY FOR COMMENCEMENT

**Liturgist:**

We praise and thank you, Heavenly Father,  
for lavishing your glorious riches  
on Calvin College and on this graduating class.

We thank you for years of increase,  
for decades of development and maturing.

We thank you for students  
who hunger for the knowledge of your will and purposes,

**People:**

for professors and administrators  
who nurture and lead,

**Liturgist:**

for supporters and constituents  
who have caught the vision of your glorious kingdom,  
and of the tasks we can do for the King,

for prophetic voices  
to warn, chasten, and correct when we lose our way,

for graduates  
whose lives of joyful service and liberating  
obedience bring the kingdom in,  
in times and ways and places far beyond  
our best planning and our boldest hopes.

**People:**

We thank you, Lord, for your great faithfulness,  
and we praise you for the lives of the  
distinguished alumni we honor today.

**Liturgist:**

We thank you today for the strength  
you give us through the Spirit,  
for the gift of Christ dwelling in our  
hearts and lives and programs,  
and for the communion of all the saints,  
in whom we catch a glimpse of how wide  
and long and high and deep is the love of Christ.

We thank you for opportunities to ask more  
boldly and to imagine more confidently  
as we move into the future,

a future in which your full glory will be on blazing  
display to all peoples and to all generations.

**People:**

On this glad day, we praise your name, O Lord.

To the God who has already graced our lives  
with vision, sacrifice, and learning,  
we come with this bold plea:

Grant unto us the joy of your salvation.

Amen.

## COMMENCEMENT SPEAKER

Dr. John M. Perkins was born in Mississippi, the son of a sharecropper. When he was seventeen, his older brother was murdered by a town marshal, and John fled to California, vowing never to return. However, in 1960, after his conversion to Christ, he returned to his boyhood home to share the Gospel. His outspoken support of and leadership role in civil rights demonstrations resulted in repeated harassment, imprisonment, and beatings. Despite these hardships and in spite of dropping out of school in the third grade, Dr. Perkins has received significant recognition for his work, with honorary doctorates from institutions such as Wheaton, North Park, and Huntington Colleges.

In 1960, Drs. John M. and Vera Mae Perkins began Mendenhall Ministries, which helps the poor in rural Mississippi to meet their own needs. Seeking to show God's love in action, Dr. Perkins saw his vision grow into a ministry that is known for providing progressive local leadership within the community to address issues of poor housing, segregated education, lack of employment opportunities, and lack of capital. Currently, this ministry offers child care, legal assistance, and youth development programs; through Mendenhall Bible Church it offers adult education, a

cooperative farm, a thrift store, a housing development, Genesis One School, a health center, and a senior citizen facility.

John and Vera Mae Perkins, along with two other families, moved to Jackson, Mississippi, in 1972 to focus on the needs of inner-city families. They founded Voice of Calvary Ministries, which is devoted to urban families through housing development, year-round youth programs, health care, and home-ownership training programs. In 1982, they moved across country to Northwest Pasadena, a neighborhood that once had the highest daytime crime rates in California. While in Pasadena, Dr. Perkins began the Harambee Christian Family Center. Harambee serves a twelve-block target area, working with African-American and Latino children and their families. Rudy Carrasco and Derek Perkins now head this ministry.

In 1983, John and Vera Mae Perkins, along with a few friends and other major supporters, established the John M. Perkins Foundation for Reconciliation and Development to support them in their mission of advancing the principles of Christian community development and racial reconciliation throughout the world. Dr. Perkins currently serves as president of the foundation, and speaks and teaches internationally on these issues.

## MESSAGE FROM THE FIFTY-YEAR REUNION CLASS

Greetings from the Calvin College Class of 1953 and congratulations to each new graduate as you receive your degree from Calvin College!

The college you are leaving is considerably different from the school we attended. The campus is beautiful, the buildings are modern and new, and your class is more than triple the size ours was. Yet over the fifty years some things have not changed at all. The dedication of the administration, the interest in each student by devoted faculty, and the love, support, and pride in your accomplishment from your family are the same today as they were at the time of our graduation.

The opportunities, responsibilities, and challenges that you face are all far greater than when our class graduated. The world is a far different place, and life is much more complex now than it was fifty years ago. Members of your Class of 2003 will scatter to many countries around the globe and represent many and varied professions and occupations, but they will always bear proudly the common bond of having had a Christian, Calvin College education.

In my post-Calvin experiences, I have met, studied, worked, and played with many people who were graduates of other colleges and universities across our country and from other countries. Never have I felt that my education at Calvin was inferior. I am proud that I can say this, and I am sure that as the years pass, you will also feel the same way.

Now, at your graduation, a most important time and a very significant event, I would like to suggest to each of you that before you leave the Calvin campus and Grand Rapids, you take a moment to thank those most significant in your life—family, professors, and others—for helping to make your Calvin experience what it has been and for their sacrifices and support over the past four years or more. You are the recipient of a priceless treasure, a degree from Calvin College! You now automatically become a member of a very exclusive and proud group—the Calvin College alumni. The members of the Calvin Class of 1953 welcome you warmly.

Roger W. Postmus, Class of 1953

## DISTINGUISHED ALUMNI

*The Calvin Alumni Association is proud to present these alumni with the Distinguished Alumni Award. Persons honored in such a way have been chosen by an independent selection committee composed of alumni, faculty, and staff and are endorsed by the Calvin Alumni Association Board.*

*Recipients of the Distinguished Alumni Award have made significant contributions to their fields of endeavor, are recognized by their associates for outstanding achievements, and manifest a Christian commitment that reflects honor upon Calvin College.*

### **Robert P. Swierenga '57**

In his career as a historian, Robert P. Swierenga '57 has moved far beyond the Dutch enclave in which he was raised, yet much of his scholarship has traced the comings and goings of centuries of his Dutch forbearers. It is a life's work for which he has received ample

recognition, including the fitting and signal honor of a knighthood in the Order of the Netherlands Lion.

"Within the historical community, the name of Robert P. Swierenga clearly ranks among the most respected. Historians have acknowledged his contribution in many fields over the decades. While some scholars make their mark in one area, Bob has earned great respect in the fields of American economic, agricultural, behavioral, and immigration history ...," wrote David G. Vanderstel '76, executive director of the National Council on Public History and a former Swierenga student.

Swierenga is also an innovator, one of the very first people to use computers to interpret historical data. "Thus, he helped to lay the groundwork for a new approach to studying the past and for training new professionals in those historical methods," Vanderstel wrote.

Born in Chicago in 1935, Swierenga was educated in that city's Christian schools before migrating to Calvin College in September of 1953, a move he describes as "axiomatic" to the Christian Reformed community of origin. "It was *onze school*—our school.... We didn't really give much thought to alternatives," he explained.

In his freshman year at Calvin, Swierenga, an aspiring business major, sought to drop a class, only to find himself nudged into his vocation. It was a history class taught by Charles Miller, an "intimidating professor" newly arrived from the American University of Beirut. Henry Ryskamp, then the academic dean at Calvin, counseled Swierenga to stay with the class.

"It didn't take me long to discover that he was a master teacher who made history so interesting. He really was my mentor," Swierenga said of Miller.

With Miller's encouragement, Swierenga earned his master's degree in history from Northwestern University. For three years, he taught social studies at Pella Christian High School, while pursuing a doctorate at the State University of Iowa. During this time, he was also starting a large family. He had married Joan Boomker ex '54 in 1956, and the couple eventually had three daughters—Suzannah, Celia, and Sarah—and two sons, Daniel and Robert, Jr.

In 1965 Swierenga's alma mater called in the person of its president, William Spoelhof, asking him to fill in for a year for a history professor who was taking a one-year leave. He took the position, despite the puzzlement of the Iowa faculty.

"Several professors said, 'Why are you going to Calvin? Why aren't you going to the university somewhere?'" At the time, Calvin was considered an obscure school that couldn't offer research opportunities. Nevertheless, Swierenga returned again to what was axiomatic. "In our circles—CRC circles—this was the epitome. You couldn't ask better than to teach at Calvin."

The three years he spent at Calvin, from 1965 to 1968, were a training ground for the new professor. "Something of Swierenga's versatility was nurtured in these years as he alternated courses on American history, the history of the frontier, and quantitative

methods with course lectures on Mesopotamia, the Middle Ages, and the Reformation. In retrospect, this too would contribute to his diversity in ways a junior appointment at a research facility could never have done," wrote Henry Stout, a Calvin colleague.

Calvin also offered him a community where he took his place in the lineup of the storied Faculty Fumblers football team and served as a church elder. The words of his Iowa professors proved prophetic, however, when in 1968 Swierenga accepted a position at Kent State University in Ohio.

His reasons for leaving Calvin demonstrate how well Swierenga exemplifies the college's mission to reclaim every inch of creation for Christ. "I really felt called to go to a secular university as a Christian. I felt I was expendable as a professor and as a church member. There were so many people here who could be strong Christian professors and elders in the church."

Swierenga was soon filling both roles in his new community. He was also a pioneer in the field of quantitative analysis, using the earliest, monolithic IBM computers to upend conventional wisdom in several historical fields. He rewrote the record on everything from Iowa tax auctions to the Dutch voting records in Abraham Lincoln's election by doggedly crunching the numbers.

It was during his three nearly decades at Kent State that Swierenga began work on a treasure trove of Dutch emigration records he had discovered years before in the Calvin archives. The resulting book, *Dutch Emigrants to the United States, South Africa, South America, and Southeast Asia, 1835-1880: An Alphabetical Listing by Household Heads and Independent Persons* served as an authoritative reference for scholars of Dutch history. "Prior to his work, nothing so complete had been compiled for persons of Dutch origin," wrote Stout.

When not analyzing history, Swierenga was participating in it, and doing so in a redemptive way. On May 4, 1970, Ohio National Guardsmen fired on an assembly of 200 protesters on the Kent State campus, killing four students and wounding nine; Swierenga

was in a building adjacent to the scene, praying about the situation with his colleagues.

In the ensuing months, with the campus and town under martial law, with helicopters patrolling overhead and armed soldiers everywhere, Swierenga found a way to exhort the student body. He taught in Kent State's Free University, derived from informal campus "teach-ins." Unearthing his Calvin College *Christian Perspective on Learning* (CPOL) handbook, he taught a class on Christian worldview, along with classes on C. S. Lewis and Francis Schaeffer. "It was a non-credit course, so people only took it who wanted it," he said.

Scholarship continued to drive Swierenga. In 1996 he circled back yet again to his Dutch origins, becoming the Albertus C. Van Raalte Research Professor in the institute of the same name at Hope College. On June 10, 2000, at a conference honoring his career, Swierenga was accorded a surprising double honor. He was presented with a *festschrift*, a volume of essays written by his former graduate students. He also received a knighthood in the Order of the Netherlands Lion, bestowed on behalf of Queen Beatrix.

The knighthood, he acknowledged, is a rare honor, but so is the *festschrift*: "Probably my enduring legacy will be my students," he said. Both his students and his colleagues agree. Swierenga has supervised some forty doctoral dissertations. "He was not aloof and removed, but interested in the well-being of his students and their families, and he demonstrated a true care and concern for each student as a person," Vanderstel wrote.

Swierenga's family also testifies to his warmth and caring as a father. And he is quick to reciprocate, particularly when speaking of Joan. "She really bore the brunt (of raising the children) all those years. That's why when I receive these accolades, she shares in them," he said.

Not even honors slow Swierenga's scholarly output. At this writing, he has published 16 books and over 130 articles. He sits on the boards of scholarly journals. His latest book, a 900-page tome titled *Dutch Chicago: A History of the Hollanders in the Windy City* (Eerdmans, 2002), once again revisits his cultural

roots. "I'm really back in the Dutch ghetto again.... In a sense, I was coming back all the time," he said.

### **Paul Vanden Bout '61**

The 1997 science-fiction movie *Contact* helped popularize radio astronomy. It also led to two major misconceptions: that scientists actually hear things from space, and that radio telescopes are primarily used to search for extraterrestrials.

One thing Paul Vanden Bout '61, an astrophysicist and longtime director of the National Radio Astronomy Observatory (NRAO), has never done is put on headphones. In fact, he has never heard anything from beyond the earth.

"I guess the word *radio* throws people off," said Vanden Bout in a 2002 interview for *Spark* magazine. "Radio telescopes are designed to make images of things in the universe, and different wavelengths produce different images. We're simply adding different information to what visible astronomy has given us. The Milky Way, for example, is not just stars—there's gas and dust particles and clouds of molecules. We've been able to delve into the origins of galaxies."

Radio astronomy was first recognized in 1932 as a way to "view" things in the universe impossible to observe with the eye or any visual telescope. The science did not catch on in the United States until the mid-1950s.

"Radio astronomy can detect molecules of all sorts, which help us understand the makeup and origin of celestial bodies," Vanden Bout said.

Vanden Bout and colleague Robert Brown contributed significantly to the scientific knowledge in this area in 1991 with the discovery of carbon monoxide in an interstellar gas cloud ten times farther away than any other molecular gas cloud seen previously. The presence of carbon monoxide indicated stars were forming. Vanden Bout and Brown had discovered evidence of one of the universe's earliest galaxies.

Discoveries like this are mind-boggling to many of us; yet for scientists like Vanden Bout they only reinforce his belief in an amazing Creator God.

“I know other scientists have had to grapple much more than I with the faith-and-science issue,” he said. “It’s always been a fairly straightforward thing for me. I don’t think the Bible is the source for ‘how’ questions; it addresses the ‘why’ questions. Since Galileo’s time, some have worried that science will contradict the Bible. But if you don’t insist on the Bible being a scientific textbook, you shouldn’t have that conflict.”

A physics major at Calvin, Vanden Bout has always been interested in science. After graduating from Calvin, he put off his enrollment at MIT in physics to pursue a Fulbright Scholarship in mathematics at the University of Heidelberg in Germany. There he became acquainted with current U.S. Congressman and former Calvin physics professor Vern Ehlers ’56, who was in Germany on a NATO fellowship. Ehlers convinced Vanden Bout to attend UC-Berkeley instead, where the young researcher met up with Alex Dragt ’58. Both Ehlers and Dragt have also received the Distinguished Alumni Award from Calvin.

In fact, Vanden Bout is the fourth physicist to be recognized with this honor. “I am glad for the broad recognition of the program in physics that Calvin has built and maintained over the years,” he said.

After doing his post-doctoral work at Columbia University, he accepted an appointment as a faculty member at the University of Texas at Austin. While a professor there, he established a collaboration between the school’s electrical engineering department and the astronomy department to update an antenna that could then be used for millimeter-wave astronomy, a field that Vanden Bout helped bring about from its infancy.

He and his colleagues used the University of Texas Millimeter Wave Telescope to demonstrate that interstellar gas clouds do indeed collapse to form stars and planetary systems.

Vanden Bout was at the helm of the NRAO from 1985 until last year, when he resigned as director to pursue his research interests. Under his leadership for seventeen years, the NRAO made several major advances.

The Very Large Array (VLA) telescope in New Mexico, dedicated in 1980, received funding for major upgrades during Vanden Bout’s tenure. Today the

twenty-seven-antenna system is the most powerful, flexible, and widely used radio telescope in the world.

The Very Large Baseline Array (VLBA) telescope, a ten-antenna system widely scattered across North America, was planned and built during Vanden Bout’s administration. It is the largest astronomical instrument on Earth.

Dedicated in 2000 under Vanden Bout’s direction, the Green Bank Telescope in West Virginia is the most sophisticated large single-dish radio telescope ever built. With a surface area of almost two acres, the instrument offers access to the entire sky.

In his current position as interim director of the Atacama Large Millimeter Array (ALMA), Vanden Bout is leading an international collaboration to build a sixty-four-antenna telescope in Chile, which will collect the millimeter wavelength “light” given off by cool objects like the gas and dust near stars and galaxies. When ALMA is completed (by 2012), it will be the largest and most capable imaging array of telescopes in the world.

With the emergence of new technology like ALMA, the radio astronomy field is constantly changing. Future study of star formation in early universe galaxies like this one is the intent of the ALMA project in Chile.

“As a direct result of Paul’s efforts, scientists in the U.S. have a complete suite of superb research facilities that is more than adequate for the needs of radio astronomy in the first half of the twenty-first century and perhaps beyond,” said Brown, deputy director of the NRAO.

Upon completing his term as interim director of the ALMA project this summer, Vanden Bout will be taking a “traveling research sabbatical” with his wife, Rachel (Eggebeen) ’61. During this time, he hopes to discover more about this vast universe of ours.

“Some people have a hard time with science because of the deep desire for fixed answers,” said Vanden Bout. “Many want to ‘learn and know.’ But science is really a way of thinking, of inquiry. We only think so at this time. Some don’t want to live with that uncertainty.

“But for Christians, the most important answers are already known. We don’t need pat answers to the mystery of the universe. We are free to be curious explorers of planets, stars, and galaxies far beyond our imagining.”

## BOARD OF TRUSTEES

Darlene Meyering, B.A.

*Assistant to the Board of Trustees*

### *Far West United States*

Carol Bremer-Bennett, B.A.

John W. DeVries, M.Div.

Charles Pasma, M.A.

### *Great Plains*

Charles De Ridder, M.Div.

### *Central United States*

Bill Alphenaar, Jr., M.S.

Edward Blankespoor, M.A.

Vern Boerman, M.A.

Robert L. De Bruin, Ph.D.

Craig Friesema, M.B.A.

John Joldersma, M.Div.

Arnold Morren, M.A.

Jack Postma, M.A.

### *Eastern United States*

Douglas Bratt, M.Div.

### *Eastern Canada*

Walter Neutel, M.A.

Henry J. Stronks, Ph.D.

### *Western Canada*

Robert Koole, M.Ed.

### *Alumni Trustees*

Connie Northouse Brummel, M.A.

Orin G. Gelderloos, Ph.D.

Marjorie Youngsma, B.S.

### *At-Large Trustees*

Elsa Prince Broekhuizen, B.A.

Stephen C. L. Chong, J.D.

Jack Harkema, Ph.D.

Milton Kuyers, M.B.A.

Cecilia Mereness, B.A.

Kenneth E. Olthof, M.B.A.

Jacquelyn Vander Brug, M.B.A.

David Vander Ploeg, J.D.

Janice VanDyke-Zeilstra, B.A.

Cindi Veenstra, B.A.

Maurice Williams, M.B.A.

Norberto Edmundo Wolf, M.Div.

## CANDIDATES FOR DEGREES AND CERTIFICATES 2002-2003

### HONORS GRADUATES

*These students have received commemorative medallions for their completion of all requirements in the Calvin College Honors Program.*

Erin C. Beekhuis Honors in Communication Arts & Sciences	Arthur P. Dykhuis Honors in Engineering	Nicholas J. Kolk Honors in Psychology	Benjamin J. Souza Honors in Engineering
Sara M. Bennink Honors in Elementary Education	Jenni A. Fetters Honors in Political Science	Dorothy C. Lee Honors in Communication Disorders	Benjamin Spalink Honors in English
Jennifer L. Bergman Honors in Religion	Stacia E. Frens Honors in Religion	Susan J. Lyon Honors in French	Bobbi Sue Sutherland Honors in History

## CANDIDATES WHO HAVE BEEN AWARDED GRADUATE SCHOLARSHIPS, FELLOWSHIPS, AND ASSISTANTSHIPS

Abigail K. Bormann	Fellowship (Speech Pathology), Purdue; Scholarship, Boston University; Assistantship, Bowling Green State University
Micah J. Bruzvoort	Essenbaggers Scholarship, Calvin Theological Seminary
Kevin C. Carley	Scholarship (History), Marquette University
James C. Cully	Fellowship (Physics), University of Michigan
Adam H. de Hoek	Research Assistantship (Psychology), Loyola University, Wayne State University
Emily J. Geenen	Teaching Assistantship (Psychology), Wayne State University
Luke C. Gelinax	Yale University Divinity School Scholarship
Yuanita Gitamara	The Ed & Betty Hoogstra Scholarship, Calvin Theological Seminary
Melissa R. Gritter	Fellowship (Speech Pathology), Central Michigan University, Eastern Michigan University; Assistantship, Bowling Green State University, Western Michigan University
Allison B. Hoogheem	Assistantship (Speech Pathology), Case Western, Syracuse University, Temple University
Brian R. Johnson	Assistantship (Computer Science), Purdue University
Benjamin R. Knott	Kuyers Family Scholarship, Calvin Theological Seminary
Elizabeth C. Linder	Scholarship (Music Therapy), Colorado State University
Laura B. Luchies	Dean's Fellowship (Psychology), University of California-Riverside
Sarah Davis Plantinga	University Fellowship (Education), University of Michigan
Rebecca C. Quemada	Scholarship (Medicine), Loyola University
Mark D. Raymo	Fellowship, Garrett Evangelical Theological Seminary
Adriana M. Ribeiro	Assistantship (Speech Pathology), James Madison University
Daniel J. Roels	Kunnen Scholarship, Calvin Theological Seminary
Philip P. Schonewill	Teaching Assistantship (Chemical Engineering), University of Notre Dame

Michael C. Scholten	Teaching Assistantship (Physics), University of Maryland
Benjamin J. Souza	Trustee Scholarship & Research Assistantship (Structural Engineering), University of Maine
Jennifer L. Stevens	Teaching Assistantship, Scholarship (Social Work), McMaster University
Bobbi S. Sutherland	Teaching Assistantship (Comparative Literature), Indiana University; Medieval Studies Fellowship, University of Illinois; University Fellowship, Yale; Sage Fellowship, Cornell
Lee W. Sytsma	Soli Deo Gloria Scholarship, Calvin Theological Seminary
Susan A. Sytsma	Princeton Seminary Grant, Princeton Theological Seminary; Graham Scholar, Gordon Conwell Seminary
Dirk T. VanEssendelft	University Fellowship (Chemical Engineering), University of California, Irvine
Kristin J. VanHeukelem	University Fellowship (Linguistics), Northwestern University; Foreign Language and Areas Studies Fellowship, University of Illinois-Champaign
Lindsey A. Walters	Distinguished Fellowship (Zoology), Michigan State University
Jessica E. Weinhold	Norma Tate Rich Scholarship, Louisville Presbyterian Theological Seminary

## DEPARTMENTAL BANNERS

Throughout history, colorful banners have been used to mark important religious and civic events and to celebrate the vision and spirit of the participants in such events. The departmental banners displayed at this occasion arise from an awareness of this tradition and are meant to continue it. Besides symbolically revealing the richness of the various disciplines at Calvin College, the banners graphically represent their distinctiveness. Although their colors are mostly in keeping with traditional associations—scarlet for religion and theology, blue for education, orange for engineering—their forms combine the traditional, the contemporary, and the abstract.

Art

Biology

### Art Department

An abstract eye and hand symbolize artistic expression through the artist's sense of sight and touch. Bright colors against black suggest creative boldness.

### Biology Department

Dominating the Biology banner is a symbol representing the structure of the DNA molecule, deoxyribonucleic acid. The structure of this fundamental material of life, the chemical basis of heredity, was revealed in 1953 and actually photographed in 1969.

Chemistry &  
Biochemistry

Classical  
Languages

### Chemistry and Biochemistry Department

The main symbol used in this banner is the electron distribution for tetrahedral hybrid orbitals, which represents the chemical activity of the elements and their compounds. Two segments of a crystal structure are included in the design, which are also the floor-plan shape of the science building. The shaft of pale yellow symbolizes the light of investigation. Yellow is the traditional color associated with science.

### Classical Languages Department

While the lyre and the wolf may be taken individually as symbols of Greece and Rome, together they portray the unity of the two civilizations and its cultural achievement, the union of art and nature, and of poetry and myth. Horace has given this continuity and fusion of the two traditions of Greece and Rome its classical literary expression in his odes, of which none better, perhaps, than the "Integer vitae" ode conveys the intention of this banner.

Communication  
Arts & Sciences

Computer  
Science

### Communication Arts and Sciences Department

Sound waves emanating from a central core symbolize communication through speech and drama. The reversal of the outward movement suggests feedback in communication. Silver gray is the color traditionally assigned to speech and drama.

### Computer Science Department

The banner of the Computer Science Department features a Turing machine, the foundational model of digital computation. The zeroes and ones on its tape reflect the binary logic by which digital computation is implemented. The changing colors and order of the numbers express the transition as data move from input through processing to output. The white shaft and its golden sheath symbolize the light and energy of education and the sciences. The flowing wind symbolizes the transforming work of the Holy Spirit as it infuses the discipline of computing.

*Economics  
& Business*

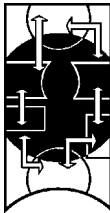

*Education*

### **Economics and Business Department**

Shapes and lines express the charting and planning of economic budgets. Subtly appearing among other symbols is a cross expressing the Christ-centered teaching of economics at Calvin College. Copper is the color associated with economics.

### **Education Department**

The relationship of teacher and student in the educational process is represented by the forceful interaction of shapes in this design. The white shaft symbolizes the light of learning in the Holy Spirit. Blue is traditionally linked with education.

*Engineering*

*English*

### **Engineering Department**

The Engineering banner illustrates the key activity of engineers, namely, their involvement with the design process, an iterative, decision-making sequence. Steps in the sequence, represented by circles and rectangles, are connected by arrows to indicate the movement from the initial problem statement to final solution. Two-way arrows suggest the possibility of sequence reversal. Orange traditionally designates engineering.

### **English Department**

The two main symbols, the lion and the eagle, represent England and the United States of America. The lozenge pattern in the background expresses the pageantry of England during the development of the English language.

### **French Department**

The banner of the Department of French features the Coq Gaulois, long a national emblem of France, and the Arch of Triumph, a symbol of French patriotism. The cock, traditionally the Christian symbol for watchfulness, has been adopted as its symbol by a nation which since its inception has been one of the important cradles of Christian thought and practice. The colors of the national flag are represented by the Coq Gaulois.

*French*

*Geology,  
Geography, &  
Environmental  
Studies*

### **Geology, Geography, and Environmental Studies Department**

Earthkeeping, the human community's care for God's earth, is symbolized in the banner for the Department of Geology, Geography, and Environmental Studies by representations of atmosphere, mountains, cities, water, and the various levels of the earth's interior. The white shaft symbolizes the light and energy of learning stimulated by the Holy Spirit.

### **Germanic and Asian Languages and Literature Department**

The study of the Dutch and German languages is represented by symbols taken from emblems of the countries associated with these languages. The traditional black eagle represents Germany, and the orange lion is from the seal of the Netherlands. The white shaft symbolizes the light of learning.

*Germanic  
& Asian  
Languages  
& Literature*

*Health,  
Physical  
Education,  
Recreation,  
Dance,  
& Sport*

### **Health, Physical Education, Recreation, Dance, and Sport Department**

Engaged in exercise, sports, and dance, a person in motion is suggested by the movement of rhythmical shapes and lines. Sage green is the color associated with physical fitness.

History

Library

### History Department

Jagged horizontal bands, representing both the rise and fall of civilizations and the four kingdoms as described in the Book of Daniel, move across vertical time lines, which also symbolize the dramatic influence of Christ on history.

### Library

The library as a gatherer, receptacle, and distributor of information, ideas, and learning is represented by the abstract book shape, while the white, flowing shaft itself symbolizes the light and energy of learning in the Holy Spirit of God. The flame is the traditional symbol of learning and discovery through research.

Mathematics  
& Statistics

Music

### Mathematics and Statistics Department

Mathematicians have always saved time and effort by substituting symbols for words. The basic arithmetical steps of adding, subtracting, multiplying, and dividing are depicted on this banner by some of the earliest ways of writing them down.

The Renaissance calculator Tartaglia used the first letter of the Italian word for *plus* to signify adding. Diophantus favored this minus sign in Greek times. Leibniz employed this multiplication symbol in seventeenth-century Germany. J. E. Gallimard used this reverse *D* for division in eighteenth-century France.

### Music Department

The design of the Music banner emphasizes the rhythms of musical sounds. Shapes and lines suggest strings, valves, keys, horn bell, drum, and other musical forms. Radiating circles suggest sound waves. The colors express the various moods of music.

Nursing

Philosophy

### Nursing Department

The traditional emblem of nursing, Florence Nightingale's lamp, is featured in the banner for the Department of Nursing. The flame of the lamp symbolizes the light of Christian compassion and education. The gold of the lamp is the traditional color for science. The background apricot color is the academic regalia color for nursing, while the white shaft represents peace through the Holy Spirit.

### Philosophy Department

Light refracted through a transparent prism symbolizes the many-faceted investigations of fact and of principles of reality and of human nature and conduct.

### Physics and Astronomy Department

The construction of elements is symbolized in the Physics banner by the simplest atom, hydrogen, with its single proton and electron. Also included in the design are a tracing of the paths of particles from an atom and a segment of a crystal structure, which is also the floor-plan shape of the science building. The yellow shaft symbolizes the light of investigation.

Physics &  
Astronomy

Political  
Science

Psychology

### Political Science Department

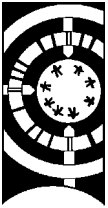

The banner of the Department of Political Science features a representation of the fasces, a symbol of the authority of the state, and arrows that express the direction and flow of the analytical and holistic nature of the process of law. The fasces, a bundle of rods bound about by an ax with projecting blade, was carried before ancient Roman magistrates as a symbol of authority. The white shaft of seven rods also symbolizes peace and enlightenment through the Holy Spirit.

### Psychology Department

The Greek letter *psi*, the first letter of the Greek word *psyche* (the mind), traditionally signifies the discipline of psychology. The color red symbolizes emotion; blue, rationality; and white, peace through the Holy Spirit.

Religion

Sociology &  
Social Work

### Religion Department

Three symbols of the Trinity—circle, cross, and dove—express the fullness of God as He reveals Himself as Creator, Savior, and Counselor. These symbols are interlocked to depict the oneness of God. The shaft of white is the light of learning in Christian education guided by the Holy Spirit. Scarlet is traditionally associated with theology.

### Sociology and Social Work

The central concept of sociology, represented by the inner circle, is a person interacting with other people to form groups. Total human society, represented by the broken circle, is composed of many small units forming a larger interrelated structure. All groups, from the family to society itself, exist within a framework of social norms. This normative or cultural framework, represented by the unbroken outer circle, promotes conformity, as suggested by the arrows directed from it toward the inner circles of society and the smaller group.

Spanish

### Spanish Department

The banner of the Spanish Department features the traditional symbols of the historical kingdoms of Castilla (castle), León (lion), and Aragón (red and yellow bars). These Christian kingdoms emerged during the eight-hundred-year-long reconquest of the Iberian Peninsula from domination by Muslim rulers. The separate kingdoms were joined through the marriage of Ferdinand and Isabella, and eventually coalesced into the modern nation of Spain.

<b>Banners:</b>	Robin A. Jensen
<b>Building Arrangements:</b>	Tim Beckwith, Sandy Palmatter
<b>Commencement Reception:</b>	Creative Dining Services
<b>Commencement Committee:</b>	Rick E. DeVries and Darlene Meyering, co-chairs; Donna Anema, Ann Baker, Sharolyn Christians, Robert Crow, Rick Balfour, Jeff Stob, Mary Jeanne Quist, Diane Vander Pol
<b>Commencement Participants:</b>	Johnathon Bascom, Claudia Beversluis, Debra Freeberg, Larry Louters, Karen Saupe, Michael Stob, James Vanden Bosch, Christina Van Dyke
<b>FAC Master of Ceremonies:</b>	Henry E. De Vries II, Vice President for Administration, Finance, and Information Services
