THE COLLEGE

History

The year 1876 is commonly accepted as the birthdate of Calvin Seminary and Calvin College. It was in that year that the Synod of the Christian Reformed Church discontinued the tutorial system of instructing young men who felt called to the ministry of the gospel and appointed a full-time “Docent” or instructor. This Synod also adopted a six-year curriculum, the first four of which constituted the Literary Department and the last two the Theological Department. Humble indeed was the beginning, but an institution had been established, the Theological School of the Christian Reformed Church.

The lone instructor taught all subjects, both literary and theological, for several years before two additional members were added to the teaching staff. In 1894, Synod, in compliance with requests from its constituents, made two momentous decisions, momentous in those early years; first, it granted permission to admit to the Literary Department other than pre-theological students; secondly, it enlarged the faculty to five members, assigning the new appointees exclusively to the Literary Department. This Literary Department thus rapidly developed into an institution of the type of the preparatory schools or academies that had sprung up throughout the New England states in the early decades of the 19th century.

Although the doors had now been opened for the admission of other than theological students, for reasons now quite obvious none sought admission to the preparatory school. The curriculum of the Literary Department was heavily weighted with courses in languages, such as Dutch, German, Latin, Greek, and even Hebrew. Such a program did not appeal to the non-theological student. Consequently in 1900, the literary or preparatory course was liberalized and broadened, and students interested in teaching or preparing themselves for pre-professional courses in the universities soon began to fill the classrooms and lecture halls.

Although the early requirement for admission to the Theological Department was four years of preparatory training, it was realized that the future ministers of the church should have a broader intellectual and cultural background, and so a fifth and, by 1906, a sixth year had been added. In 1906, the Literary Department, now consisting of four years of preparatory and two years of college work, became known officially as the John Calvin Junior College. Four years later, in 1910, a seventh year was added and, by 1920, the Junior College had become a full-grown, four-year liberal arts college and
had assumed the name, Calvin College. Its first president was appointed in 1919, and the Bachelor of Arts degree was first awarded in June, 1921. The college curriculum was broadened to meet the needs of the increasing number of young men and women who sought permission to enroll as students. The faculty likewise was enlarged so that in this year of 1959 it has ninety full-time members. Graduates of Calvin are accepted at leading graduate and professional schools in the United States.

What had been the preparatory department was discontinued in 1921 when the last Freshman class was admitted. Those registered previous to this date were permitted to complete the four-year program, and thus, by 1925, only students of college level remained on campus.

The school which had started with seven students in 1894 grew slowly during the first three decades, but by 1915 had a student total of 300, including 239 in the Preparatory Department and 61 in the College. The following figures indicate the growth.

Between 1920 and 1940 the student body had increased fourfold. Then came the tidal wave of enrollments, so that today over 1900 young men and women are taking advantage of the educational programs which Calvin offers.

**Aim and Purpose**

**CALVIN COLLEGE** is a church-related college, existing under the auspices of the Christian Reformed Church, a Protestant denomination which has adopted as its standards the Belgic Confession, the Heidelberg Catechism and the Canons of Dordt. The members of the faculty endorse and affirm the following statement which they acknowledge without reservations as a statement of their task and goal as Christian teachers:

"According to the constitution all instruction given must be in harmony with Reformed faith. The various branches of study, therefore, are considered from the standpoint of faith and in the
light of Calvinism as a life and world view. The aim of the college is to give young people an education that is Christian, in the larger and deeper sense that all the class work, all the students' intellectual, emotional, and imaginative activities shall be permeated with the spirit and teaching of Christianity."

Members of the faculty acknowledge and in all their teaching are guided by certain basic Christian principles, among which are the following:

- "That all instruction at Calvin College must be under the absolute Lordship of the Christ."
- "That the Bible, the infallible Word of God, is our rule and guide in faith and life, doctrine and conduct."
- "That all thinking is determined by presuppositions and that all teaching at Calvin must be determined by the presuppositions of the Christian Faith as set forth in our Reformed standards."

The college admits to its student body young men and women who are affiliated with orthodox Protestant Christian churches. It seeks to develop in its students a sense of genuine personal piety, of personal integrity, and of social responsibility. It strives to emphasize that service to God and fellow man is possible and necessary in all professions and activities. It aims to maintain high standards of scholarship and ethical conduct, both in the faculty and student body, in the spirit of the ideals of its founders.

Control and Government

Calvin College is controlled by the Synod of the Christian Reformed Church through a Board of Trustees, consisting of both ministers and laymen, elected by the Synod. This Board meets in February and May of each year. An Executive Committee which meets monthly functions for the Board throughout the school year.

Accreditation

Calvin College is fully accredited by the North Central Association of Colleges and Secondary Schools, the regional accrediting agency of this area. It is on the approved list of the University of Michigan, the Department of Public Instruction of the State of Michigan, and the State Education Department of the State of New York. Courses completed at Calvin are accepted by other colleges and universities, and graduates of the college, in general, may expect admission to full graduate standing in standard universities. Calvin College is a member of the Association of American Colleges.
The Summer Program

The program of studies offered during the summer is planned to meet the needs of:

1. Teachers who wish to continue study toward the bachelor's degree.
2. Teachers who desire credits to meet certification requirements.
3. High school graduates who desire to begin college in the summer.
4. Discharged veterans and others who wish to speed up the program.

Credit earned during this session has the same value as credit earned during the year and is transferable to other institutions. The credits are expressed in semester hours.
ADMISSION

All Applications for admission should be made to the Dean of the College before the first of August. Since the applications must be made on the forms provided by the college, the applicant should send for these early. The forms referred to include:

(a) Personal application
(b) Information blank for personnel service
(c) Transcript of high school record
(d) Recommendation of pastor
(e) Health record
(f) Consistory recommendation (for pre-seminary students only).

One who intends to study for the ministry must present a recommendation from his consistory endorsing him for the ministry, in addition to the pastor's recommendation.

Those seeking admission at the beginning of the second semester should apply, if possible, by the first of January.

A student who withdraws from college and later wishes to re-enroll should make formal application on a Re-admission Form provided by the college.

Freshman Standing

Students will be admitted to Freshman standing by plan A, B, or C.

Plan A.
1. The applicant for admission must submit a certificate from an accredited school.
2. Amount of work. This certificate must testify to the satisfactory completion of fifteen units of work. By a unit of work is meant the equivalent of five recitations a week for thirty-six weeks in one branch of study.
3. Prescribed work. The fifteen units required for admission must include four sequences, two major sequences and any two minor sequences, selected from the five groups listed below. A major sequence consists of a minimum of three units, a minor sequence of a minimum of two units.

I. ENGLISH
A major sequence of at least 3 units is required

II. One major sequence (3 units) and two minor sequences (2 units each) are to be chosen from Groups A, B, C, D.
Two sequences may be chosen from Group A but only one from Groups B, C, D

23
A. FOREIGN LANGUAGE GROUP

A sequence consists of work in a single language, not in the combination of two languages. The foreign languages acceptable are: Greek, Latin, French, German, Spanish, and Dutch.

Prospective college students are urged to submit two units of a foreign language for college admission.

B. MATHEMATICS-PHYSICS GROUP

A minor sequence in this group must include 1 unit of algebra and 1 unit of plane geometry. A major sequence is formed by adding to this minor sequence 1 or more units from the following:

- Adv. algebra...½ or 1 unit
- Solid geometry...½ unit
- Trigonometry ......½ unit
- Physics .............. 1 unit

Prospective college students are urged to submit two units of mathematics for college admission.

C. NATURAL SCIENCE GROUP

- Biology ................. 1 unit
- Botany ................... 1 unit
- Chemistry ............... 1 unit
- Zoology ................... 1 unit

D. SOCIAL STUDIES GROUP

- Ancient history, 1 unit
- European history, 1, 1½, or 2 units
- American history, ½ or 1 unit
- American government, ½ unit
- Economics, ½ unit

Minimum requirements from above groups.

The remaining units required to make up the necessary 15 units required are elective from among the subjects listed above and such others as are usually counted toward graduation by the accredited school. The Dean, however, has the right to reject such credits as the institution considers undesirable. One unit of foreign language may be offered under this group.

Total

Physics may not be counted in both of the Groups B and part of a sequence.

English history may be included under European history. World history may be included when accompanied by a second full year of history.

Students who plan to meet the Bachelor of Arts degree requirements would be wise not to omit more than one of the above groups in selecting sequences and should, if possible, complete one foreign language sequence in high school.
Suggested High School Programs

Students who expect to pursue in college any one of the courses listed below are advised to submit for admission the following subjects, if possible:

1—Subject requirements for General A.B., A.B. in Education, Pre-Law, Pre-Nursing, and Pre-Medical Technology Courses:

- English 3 units
- Math. 2 units (Algebra and Geometry)
- Latin 2 units
- Science 2 units (Biology and Chemistry or Physics)
- History 2 units

Plus one additional unit in any of the last four subject areas to make a second major sequence of 3 units. To the total of the 12 units suggested above, four additional elective units may be added of any subjects ordinarily accepted for graduation from high school. (This total assumes that the student is required to complete 16 units for graduation.)

2—Subject requirements for Pre-Seminary course:

- English 3 units
- German 2 units
- Latin 2 units
- Math. 2 units (Algebra and Geometry)
- Science 2 units (Biology and Chemistry)
- History 2 units

Total suggested above: 13 units; Additional elective units: 3 units = 16 units.

3—Subject requirements for Pre-Medical and Pre-Engineering courses:

- English 3 units
- Latin 2 units (or another Foreign Language)
- History 2 units
- Science 3 units (Biology, Chemistry, Physics)
- Math. 3 units (Algebra 1½ units, Geometry 1 unit, Trig. ½ unit)

Total suggested above: 18 units; Additional elective units: 3 units = 16 units.

4—Subject requirements for Pre-Business Administration course:

- English 3 units
- History 2 units
- Latin 2 units (or another Foreign Language)
- Math. 3 units (Algebra 1½ units, Geometry 1 unit, Trig. ½ unit)
- Science 2 units (Biology, Chemistry)

Total suggested: 12 units; Additional elective units: 4 units = 16 units.
Plan B. Admission by Examination. Applicants who are unable to furnish approved certificates, and who are therefore unable to meet the first requirement of Plan A, may be admitted by passing examinations satisfactorily; they can meet the other requirements of Plan A. This applies especially to applicants who have successfully completed the General Educational Development tests.

Plan C. Provisional Admission. An applicant for admission whether on Plan A or B, who meets all the requirements save that he fails by not more than one unit to satisfy the requirements either as to prescribed work or as to distribution of work, may be admitted provisionally. The deficiency must be removed before the end of the first year of residence. However, applicants are strongly urged to make up any deficiency during the summer preceding their enrollment as freshmen. Attention is called to the course offerings of the Calvin College summer session.

Admission of War Veterans

Calvin College has been approved by the Veterans Administration as an institution of higher education for the training of discharged servicemen. A veteran who wishes to attend college should obtain Form 7-1990, Application For Program of Education and Training from the nearest regional office of the Veterans Administration or from the college Registrar's office. Advice for completing this form will gladly be given by Calvin's Veterans' Counselor. Upon submitting this form to the Veterans Administration the veteran will receive a Certificate of Education and Training. This should be presented to the Registrar or his secretary at the time of registration.

For admission to college, veterans will be expected to submit all of the application blanks required of civilian students for admission. Veterans will receive credit, as recommended by the American Council on Education, for liberal arts courses taken through USAF and for correspondence courses taken from accredited universities.

Admission of Foreign Students

Calvin College was approved by the commissioner, Immigration and Naturalization Service, Washington, D.C., December 3, 1947, File Number 56182-720, as an institution of higher education for the training of immigrant students who are in the United States on student visas.

Foreign students, particularly in countries other than Canada, should begin making application for admission to college early in the spring. To prevent loss of time they should proceed as follows:
1. Write to the Dean or the Registrar of Calvin College, declar­
ing their intention of seeking admission and requesting the neces­
ary application blanks.

2. Return all blanks, properly filled in, to the college as soon as possible. This includes official transcripts of record of all high school or college preparatory training and such credits as were earned on the college or university level. Upon receipt of acceptance for admission from the Dean of the College, they should immediately make application with the American Consul in the area of their resi­
dence for passport and visa.

Advanced Standing

Advanced Standing (in other words, college credit), is granted in the following cases:

1. When the applicant submits from an accredited college, junior college, or college of education, a certificate of honorable dismissal and a transcript of the studies pursued. However, no applicant is allowed more than sixteen hours of credit for each semester of work taken at another recognized institution. No more than 70 semester hours of advanced credit will be allowed for work taken at an accredited junior college.

2. When the applicant, at the time of entrance, satisfactorily passes examinations in the subjects in which he desires advanced standing.

3. When the applicant submits from an accredited high school, in excess of sixteen units for admission, credits in subjects which are also taught in college; provided that for at least one semester he successfully continues work in these subjects at Calvin College. The limit of such college credit allowance is six hours.

4. When the applicant submits credits from an accredited high school for work done after graduation, provided these credits are in courses taught in both high school and college; the limit of such college credit allowance is six hours.

Admission to advanced standing does not excuse the student from meeting the specified requirements for graduation from Calvin College. For example, students entering as sophomores in the General College course must, for graduation, earn 188 honor points; those entering as juniors, 125 honor points; those entering as seniors, 62 honor points.

All advanced standing is subject to revision at the end of the first year of residence.
Students expecting advanced standing for work done at other institutions should bring full credentials, and should at the time of entrance consult the Dean of the College.

Advanced credit up to nine semester hours will be allowed for courses taken by correspondence at accredited colleges or universities.

Exchange of Credits Between College and Seminary

1. A college student may, under the conditions stipulated below, be permitted to take courses for credit in the seminary. Under circumstances, however, may the credit earned be applied toward fulfillment of degree requirements in the college if it is also used to meet degree requirements in the seminary. In other words, the credit may not be counted toward degrees in both college and seminary.

2. College students may be permitted to enroll in such seminary courses as the seminary permits them to take and as the Dean of the College approves. Ordinarily, such courses may not be substituted for courses prescribed in the college to meet degree requirements, either the subject requirements prescribed in the catalog or the major and minor requirements prescribed by the several departments. The subjects must be such as would ordinarily be accepted for credit by the head of the department to whose field the subject would be regarded as belonging.

3. A student enrolled in the college may not take any work in the seminary for seminary credit without informing the college authorities. No more than six seminary hours may be taken in any given semester.

4. A student enrolled in the seminary may be given permission to take courses in the college for seminary credit, that is, for credit to be transferred to the seminary, provided he has received the permission of the Registrar of the Seminary, the Dean of the College, and the professor whose course is involved.

Unclassified Students

Applicants for admission who are not candidates for graduation may be enrolled for such studies as their preparation qualifies them to pursue with profit. Such applicants should consult the Dean of the College regarding arrangements.

For students from foreign countries, other than Canada, who are in the U.S. on a student visa, the tuition is $275.00 per semester. If the student becomes a member of a Christian Reformed Church in the Grand Rapids area, the tuition will be that charged in the local zone and will be retroactive to the beginning of the semester in which he joins a Christian Reformed Church in the Grand Rapids area.

*Children of Missionaries of the Christian Reformed Church.*

For students under twenty-one years of age, whose parents are foreign missionaries of the Christian Reformed Church, still in active service, there will be no tuition charge.

*Students who are members of the Christian Reformed Church, but whose parents are not.*

For students who are members of the Christian Reformed Church, but whose parents are not, the tuition is based on the zone in which the Christian Reformed Church of which the student is a member is located.

In calculating the tuition of married students residence is determined as follows:

The residence of a married student is considered that of his former established home until he has resided in the local zone for two semesters.

**Other Fees**

**Excess Hours Fee**

Students taking in excess of eighteen semester hours will be charged an extra fee of ten dollars for each such excess semester hour.

A student who is enrolled in the College may take courses in the Seminary, in accordance with regulations given on page 28, "Exchange of Credits Between College and Seminary." Credit hours thus elected will be considered part of the student's total load.
this is in excess of 18 hours, there will be a charge of $10.00 for each additional hour.

**Directed Teaching Fee**
A fee of ten dollars per semester is paid by students who register for Directed Teaching.

**Graduation Fee**

**Transcript Fee**
Each student is entitled to one official transcript of his scholastic record at Calvin College without charge. For subsequent transcripts there is a charge of $1.00 additional. Copies requested at the same time are issued at a charge of twenty-five cents each. When additional credits have been earned, a free supplement will be sent upon request, to the same address as a previous transcript.

**Late Registration Fee**
A fee of ten dollars will be charged for late registration.

**Special Examination Fee**
A fee of three dollars is charged for all special examinations which are administered at the request of the Dean of the Faculty.

**Summer Session Fee**
The tuition fee is fourteen dollars per semester hour of credit. (This is subject to change.)
INDIVIDUAL LESSONS FEE

Charges for individual instruction in voice, piano, organ, and orchestral or band instruments, are at the rate of forty-five dollars per semester (fifteen lessons). The fee for use of the organ practice is fifteen dollars per semester.

LOCKER FEE

No separate charge is made for a locker. Rental charge for the use of lockers is included in the tuition fee.

CHARGES FOR LESS THAN A SEMESTER

If a student discontinues before the end of the twelfth week of a semester, he shall be charged a pro-rata share for the portion of the semester completed. For the purpose of this computation, a partial week shall be treated as a full week. There will be no reduction in the semester rate for a student who discontinues after the end of the twelfth week.

Living Expenses

LIVING EXPENSES, including board, room rent, fuel, light, laundry, and text books are from $800.00 up per year.

HOUSING

Housing for Men

SOME out-of-town men students are accommodated in the campus dormitory. Others are housed in private homes in the vicinity of the college. The cost per semester in the dormitory, including meals at the Commons, is about $300.00.

Men living in the dormitory need not furnish their own towels, sheets, pillow cases, or blankets. These will be furnished by the college.

The office of the Dean of Men keeps on file a list of approved rooming places in the community. The cost of these rooms ranges from $5.00 to $6.00 per week per person. Out-of-town men students must stay in the dormitory or in a home on the approved list. If the place at which they desire to stay is not on the approved list, they must obtain approval from the Dean of Men before renting the room. Rooming places may be selected during the summer or immediately upon arrival in Grand Rapids for registration. Dormitory application blanks may be obtained by writing to the Dean of Men.

Board for Men

A FEW of the homes offering lodging also offer to serve meals to men students. Men may also eat at the Commons where the cas
for food runs about $200.00 per semester, depending on changes in food costs.

**Housing and Board for Women**

All out-of-town freshman women students must live in a school housing facility unless working for room and board or living with near relatives. Permission for the latter must be obtained from the Dean of Women.

The college operates eleven guild homes in the southeast section of the city. These provide housing for freshman women students. These homes are under the direct control of the Dean of Women and each is under the personal supervision of a housemother and student counselors. Each student works out part of her room and board. Net expenses per semester are about $110.00 for room and $200.00 per semester for meals. Application for admission to these homes should be made with the Dean of Women.

Women living in college residence halls need not furnish their own towels, sheets, pillow cases. These will be furnished by the college. Blankets must be furnished by the student.

Applicants accepted for admission to residence halls are expected to retain possession of their rooms for one year, and may not move to other living quarters without permission of the Dean of Women.

Admission to residence halls is regarded by the college authorities not as a right, but as a privilege which may be withheld or withdrawn from any student whose presence there may not be considered desirable.

For those women students who are unable to procure admission to a college residence hall, or who wish to live in a private home, the Office of the Dean of Women keeps on file a list of approved rooming places, and will do all in its power to obtain for the student the kind of place desired. A city such as Grand Rapids offers excellent opportunity for self-support, especially for young women who desire to work for their room and board. Since it has been found most desirable for students to discuss financial arrangements and other matters with their prospective landladies, the college will not make advance assignments to private homes. Upon arrival in Grand Rapids the student should report to the Dean of Women.

**Apartments**

A limited number of apartments is usually available for students twenty-one years of age who desire to do their own cooking. Permission to stay in an apartment must be obtained from the
Dean of Men, for men, and from the Dean of Women, for women students. All apartments must be on the approved list. Freshmen are not permitted to stay in apartments.

Payment of Room and Board

All payments for rooms in the college housing facilities and for meals in the Commons are to be made in advance.

At least one-half of the room rent for each semester must be paid at the time of registration and the balance must be paid before the end of the eighth week of the semester.

Payments for meal tickets are to be made in advance and each advance payment must cover at least one quarter of the semester charge.

Payment for room and board in private homes is an arrangement between landlord and student. Students are expected to meet these obligations promptly and when complaints are received because of non-payment they will be handled by the Dean of Men or Dean of Women.

All rates quoted for room and board are approximations and are subject to change.

STUDENT AID SERVICE

Student Loan Fund

Students in need of financial assistance to meet tuition, room, or board obligations may apply at the Dean of Men's Office for a student loan. The following types of loans are available:

A. Emergency Loans for amounts up to $50.00, available from the Dean of Women or the Dean of Men.

B. Short-Term Loans, with repayment during the following summer.

For further information regarding "B" or "C", contact the Dean of Men.

Placement Bureau

THE PLACEMENT BUREAU was established some years ago for the purpose of assisting prospective teachers, graduates of Calvin College, in securing teaching positions. This bureau keeps on file a list, both of vacancies in the teaching forces in our Christian Schools throughout the country, and of graduates who desire to teach. All correspondence for the Bureau should be addressed to: Placement Bureau, Calvin College. There is no charge for these services.

Student Employment Service

A STUDENT EMPLOYMENT SERVICE is operated under the supervision of the Dean of Men's Office. Students desiring part-time employment may fill in application cards with this service at the time of registration or at the Employment Office, 2nd floor of Seminary Building, any time during the semester. This office has on file the names of business firms and individuals who are interested in employing students on a part-time basis.

Student Health Insurance

There is available to all students a Group Accident and Sickness Expense Protection Plan. The premium cost, only $14.50 for twelve months, is extremely low considering the coverage that is provided under the plan. A family plan is also available. Although participation is voluntary, the College Administration strongly urges all students not covered by a medical plan to participate. Detailed information is available at the Business Office.
ADMINISTRATION

Religious Culture

IN ACCORD with its specific aim and with its belief that this aim cannot be attained unless the religious side of the student’s life receives due attention, the College makes religious instruction, either doctrinal or historical, compulsory for all classes of students. Ten hours of such religious instruction must be taken during the four college years in accordance with a set program.

Devotional exercises are held daily, including Saturday, at 9:30 A.M. All students are required to attend devotional exercises on the days assigned to them.

It is understood, too, that on the Sabbath every student worships regularly at some church of his own selection.

Students attending Calvin College and Seminary, who are too far from home to attend services there, are expected to transfer their membership to a local church of their own choice; or retain their membership with their home church, but place themselves under the temporary care of one of our Grand Rapids churches. The latter can be done by means of student certificates supplied by the student’s own consistory. Either plan must be effected during the first eight weeks of school.

As often as is deemed necessary during the course of the college year faculty counselors have consultations with each student, the aim being to offer, in addition to academic counseling, such help in the moral and spiritual life as the student may need.

The Christian Reformed Church which sponsors Calvin College is eager to have its students live the full Christian life—a life dedicated to the glory of God and to the service of our Lord Jesus Christ. It is deeply grieved when they fall short of the high expectations held for them.

The Faculty of Calvin College has been instructed by the Synod (1940) “to deal in the spirit of love, yet also, in view of the strong tide of worldliness which is threatening our churches, very firmly with all cases of misdemeanor and offensive conduct in the matter of amusements, particularly theater-attendance, card-playing, and dancing, and to discipline and finally expel all students who refuse to heed the admonition of the school authorities in this matter.”
The Hekman Memorial Library

The library contains more than 95,000 volumes, to which about 7,000 are added yearly. More than 700 different periodicals are received. The recently enlarged building provides seating for some 225 students, and houses the Cayvan Collection of 8,500 phonograph records. The library is open from 7:45 A.M. to 9:30 P.M., Monday through Friday, and from 7:45 A.M. to 5:00 P.M. on Saturday, during the school year. Vacation hours are from 8:00 A.M. to 5:00 P.M., Monday through Friday.

Required Physical Education

Physical education is a requirement for all Freshman and Sophomore students. Freshman men meet twice a week; all others once a week. Attendance at all classes is required and exemptions from this requirement are permitted only upon the written request of the campus nurse or upon the written consent of the Dean of the college.

Returning veterans who have had not less than twenty-four months of military training may be excused from taking physical education. Those who have had six months training will be required to meet Freshman-Sophomore requirements.

While no academic credit is given for this work, semester grades "Cr." (Credit) or "F" (Failure) will be given, based on the student’s skills, knowledge, attitude, and attendance.

Health Center

The college provides limited health and medical service for all students. The fee for this service is incorporated in the tuition charge. The Health Center is located on the ground floor of the Dormitory Building. Its facilities consist of examination room, dispensary, men’s sick bay, and women’s sick bay. The health service is staffed by the Campus Nurse and by the Campus Physicians. The former is on full-time duty; the latter will schedule one or two consultation hours each morning. The service is limited to outpatient treatment. All serious medical problems will be referred to the student’s family physician (in the case of in-town students) or to a physician of the student’s own choice.

Attendance

The school year of thirty-six weeks is divided into two semesters of eighteen weeks each. A summer session of six weeks is offered each summer.
Two vacations are given during the year: a vacation of two weeks at the Christmas holidays, and a spring vacation of one week. Students are required to remain on duty until the last school exercise preceding a vacation is completed, and to be present at the hour of opening, after a vacation.

**Grades and Honor Points**

**REPORT CARDS** are sent out at the end of each semester. In grading the work of students during the years previous to September 1, 1957, the following honor points were assigned to the various grades:

Beginning with the school year, September 1957, a revised system of equivalent honor points was adopted, as follows:

<table>
<thead>
<tr>
<th>MARK</th>
<th>INTERPRETATION</th>
<th>HONOR POINTS</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>Exceptional</td>
<td>4</td>
</tr>
<tr>
<td>B</td>

<tr>

<tr>

</tr>
<tr>

<td>0</td>
</tr>
<tr>
<td>I</td>
<td>Work not completed</td>
<td></td>
</tr>
<tr>
<td>X</td>
<td>Absent from examination</td>
<td></td>
</tr>
</tbody>
</table>

To meet graduation requirements the student must satisfactorily complete 125 hours of credit with a total of 250 honor points (C average). Honor points are computed on the basis of attempted hours.

It will be observed that the grade of E, “condition,” has been eliminated.

For a course marked F a student can receive credit only by satisfactorily repeating the whole course.

If a student is absent from a final examination the mark X will be given. This mark must be removed by taking the examination at the time scheduled for re-examination. If the examination is not taken within one year, the mark X automatically becomes F.

**Incompletes**

The mark I signifies the absence of a certain amount of reading to be completed, or of papers to be handed in. This mark is given only in cases of prolonged illness and in emergencies, i.e., in
circumstances which may reasonably prevent a student from completing his work on time, such as directed teaching, inability to obtain necessary books, etc. To remove a mark I the student must secure credit for the course by satisfying the instructor within one year. Responsibility for securing such credit and for obtaining from the instructor concerned a signed removal slip, without which no change is made in the Registrar’s entries, and for presenting such removal slip to the Registrar, lies with the student.

Should a student fail to remove the mark I within the allotted time, the mark automatically becomes F.

Seniors must have all incompletes removed by May 1 of the year in which they expect to graduate. Following this date, the mark I automatically becomes F.

When the record of a student suggests doubt as to his fitness to do more advanced work in a particular department, his case is determined jointly by the Dean of the College and the instructors concerned.

Examinations and Written Work

Regular examinations, in writing, are held at the close of each semester. In addition, tests and written recitations are given frequently during the year, with or without previous notice, at the option of the instructor.

Term papers and book reports (not including weekly or bi-weekly assignments) shall be in three weeks before the final examinations.

Any student found guilty of dishonesty in any examination or test or required written work of any character, will be graded F in the course, besides being subject to discipline.

Latest Date of Registration

No student will be permitted to enroll after the first week of classes without the permission of the Dean of the Faculty and the Registrar.

Schedule Changes

No schedule changes will be permitted after the second week in any semester.
Dropping and Changing of Courses

AFTER the second week of classes no student may drop or add a subject without the approval of the Dean of the Faculty.

Auditing Courses

To AUDIT a course a student must meet the requirements for admission to Calvin College. There is no additional charge for full-time students, providing their total number of hours does not exceed 18. The fee for students who are not enrolled full time will be one-half of the regular hourly charge. Students should enroll for auditing a class in the same manner in which they enroll for credit. If a student has not previously registered he must pay a matriculation fee of $5.00.

Auditors are required to attend class and conduct themselves in class just as if they were full-time students working for credit. They are not required to take tests or final examinations and do not receive credit.

Class Visitors

UNDER certain conditions, students may attend classes as visitors. Permission to do so must be obtained from the office.

Dismissal

ADMISSION to Calvin College is a privilege, not a right. This privilege may be withdrawn from any student whose presence is regarded by the college authorities as undesirable.

Use of Automobiles

AUTOMOBILES owned or operated by Calvin students must be properly registered with the college and carry an official college automobile permit, and they may be parked only in approved parking places when in the vicinity of the campus.

All students may apply for college automobile permits. It is within the discretion of the college administration to disqualify any applicant by reason of demonstrated academic or financial deficiency. The fee for each permit is $3.00 per year.

Students are not permitted to park on campus on school days before 4:30 P.M. The college maintains a parking lot east of the campus on Franklin Street for students use. Students are held responsible for full knowledge of these approved parking places as well as all other student automobile regulations.

The use of automobile not properly registered, as well as all parking violations, will be dealt with by means of established financial penalties, and also, if necessary, by stringent action of the Discipline Committee.
REQUIREMENTS FOR GRADUATION

THE COLLEGE graduates students from the following courses: General College, pre-Seminary, Education, pre-Medical, pre-Dental, pre-Law, pre-Engineering, pre-Business Administration, pre-Nursing, and pre-Medical Technology.

Every student (except those few who register as "Unclassified") must, in addition to the required physical education, fulfill the requirements of the course from which he elects to graduate. The requirements in each course are listed below.

All full-time students registered at Calvin College are required to take courses in Bible. Students in residence for a full year are required to complete 4 semester hours; those in residence for two years at least 6 semester hours; those in residence three full years at least 8 semester hours; those in residence four years at least 10 semester hours.

By a SEMESTER HOUR of credit is meant in each case the equivalent of one recitation a week in one subject for one semester. The number of hours of credit given for a particular subject is indicated in the description of that subject to be found under DESCRIPTION OF COURSES.

The subjects are listed as follows: Art, Bible, Biology, Chemistry, Dutch, Economics, Education, Engineering, English, French, Geography, German, Greek, History, Latin, Mathematics, Music, Philosophy, Physical Education, Physical Science, Physics, Political Science, Psychology, Sociology, and Speech.

All prescribed freshman and sophomore courses must be completed in the first two years.

No diploma will be granted for less than one year's resident work, which ordinarily must be the year immediately preceding graduation.

When no full course is completed, a statement is given of the studies which the student has successfully completed.

The requirements for the General College degree apply to all four-year students who complete the curricula outlined below and who wish to complete the requirements for a Bachelor of Arts degree, i.e. all students enrolled in the following courses:

General College

1. **AMOUNT OF WORK.** The student must complete 125 hours of work.

2. **GRADE OF WORK.** The student must obtain a total of 250 honor points; in other words, must obtain an average grade of C.

3. **PRESCRIBED WORK.** Of the 125 hours required, the following are prescribed:

<table>
<thead>
<tr>
<th>Hours</th>

<tbody>
<tr>

</tr>
<tr>

</tr>
<tr>

</tr>
</tbody>
</table>

**FOREIGN LANGUAGE REQUIREMENTS**

a. Students will be required to complete the equivalent of two years (four semesters) of one foreign language and one year (two semesters) of a second foreign language. One of these must be an ancient language and the other a modern language.

b. Students who have earned credit for foreign language in high school may have this credit applied toward the fulfillment of the college language requirement. For the purpose of evaluating high school credit in a foreign language, one year of foreign language in high school will be regarded as the equivalent of one semester in college.

c. The student is advised to make his choice of foreign language, in consultation with the Dean of the College, who, in exceptional cases, may approve a deviation from any or all of the above rules.

d. The foreign language requirements must be completed by the end of the sophomore year.

4. **DISTRIBUTION OF WORK. MAJORS AND MINORS.**

All students pursuing the course leading to a General A. B. degree, must, not later than the beginning of their junior year, apply to the head of the department of their selection for permission to major or to concentrate in that department. The department head, on accepting the application, will outline the student’s program of major and supporting courses.

To insure proper distribution of the student’s work, the subjects have been divided into three groups, as follows:

**Group I.** Art, Dutch, English, French, German, Greek, Latin, Music, Speech.
Group II. Biology, Chemistry, Geography, Mathematics, Physics, Psychology.

Group III. Bible, Economics, Education, History, Philosophy, Political Science, Sociology.

The student must distribute the total 125 hours (including those prescribed) among the three groups, complying with the following restrictions:

a. At least 24 semester hours in one subject chosen from one of the above groups I, II, or III. This constitutes a major.

b. At least 12 semester hours (15 semester hours for a Teacher's Certificate) in one subject, other than the major subject, but in the same group from which the major subject is chosen. This constitutes a minor.

c. At least 18 semester hours chosen from one of the other two groups, that is, other than the major group. At least 12 of these 18 semester hours must be in one subject (15 semester hours for a teacher's certificate). This constitutes a second minor.

The student who elects 15 semester hours in each of his two minors, and the required 24 semester hours for a major, is eligible for a provisional certificate and the General A.B. degree (see also paragraph 6).

At least one-half of the work taken in residence beyond the sophomore year must be in courses not open to freshmen.

5. Degrees A.B. and B.S. On satisfactory completion of this course, the student will receive the degree of bachelor of arts. If he has met all the requirements of this course and has completed 60 or more hours in Group II he may elect to receive the degree of bachelor of science instead of bachelor of arts.

6. State Teachers' Provisional Certificate. To be eligible for recommendation for a State Teachers' Provisional Certificate the student must on graduation meet the Michigan State Department of Education requirements for either the Elementary or the Secondary Provisional Certificate. The minimum subject requirements stipulated by the Michigan State Department of Education are: Psychology 201-202; Education 203; Education 314, or 315, or 317; a methods course; and Education 343 or 344, a total of at least 20 semester hours of Education in addition to Psychology 201.

Prospective high school teachers must arrange their programs so as to complete a major of 24 hours and two minors of 15 hours each. (See 2a under Education, p. 64.)
Prospective elementary school teachers must arrange their programs so as to complete either a major and two minor sequences, or four minor sequences. (See 3 under Education, p. 65.)

Pre-Seminary

The student who completes the prescribed Pre-Seminary curriculum will have met all the requirements for a General College degree. He will have a major sequence in Greek (including Greek and Roman History) and minors in English, Modern Foreign Language, and Philosophy.

1. **AMOUNT OF WORK.** The student must complete 125 hours of work.

2. **GRADE OF WORK.** The student must obtain a total of 250 honor points; in other words, he must receive an average grade of C. To receive, in addition, the faculty's recommendation for admission to Calvin Seminary, the student must obtain one and two-thirds as many honor points as hours of credit, effective as of September, 1954, and two and two-thirds as many honor points as hours of credit, effective beginning September, 1957.

3. **PRESCRIBED WORK.** The following 117 hours of work are prescribed:

* The Seminary requires of all entering students a reading knowledge of Dutch, if such students contemplate entering the ministry of the Christian Reformed Church. Applicants for admission to the Seminary will be required to pass an Entrance Examination in Dutch Reading.

** The Student who has not had the equivalent of first year college Latin in high school will have to make this up in college but may not count the credit which he earns in freshman Latin toward the 125 semester hours required for the degree. This provision will not go into effect until September 1962.

### Three-Year Pre-Medical and Pre-Dental

(See note regarding pre-medical entrance requirements on page 25.)

1. **Amount of Work.** The student must complete 94 hours of work.

2. **Grade of Work.** The student must obtain a total of 188 honor points; in other words, must obtain an average grade of C;
except that to obtain faculty recommendation for admission to a Class A medical school he must in the three years of residence obtain a total of 282 honor points, representing an average of B.

Pre-Medical students are strongly advised to take a four-year college course.

One and one half units of Algebra in high school is a prerequisite for Trigonometry.

For admission to the University of Michigan School of Medicine, the foreign language requirement may be met by one college year in any of the following languages: French, German, Spanish, Latin, or Greek. High school credits in languages will not be acceptable in lieu of this requirement or any part of it.

Students desiring to enter a medical school other than that of the University of Michigan should consult the catalog of the institution for foreign language requirements.

Since modern language requirements for admission into medical schools vary widely, medical students are advised to consult the office in respect to them.
4. DISTRIBUTION OF ELECTIVES. For their electives students should choose such subjects as are required for admission to the medical or dental school which they expect to attend eventually.

5. DIPLOMA AND DEGREE. On satisfactorily completing this course with a record of not less than 219 (C+) honor points received in the required ninety-four hours, the student will be eligible for the degree of bachelor of science on the combined curriculum plan in letters and medicine, or on the combined curriculum plan in letters and dentistry after one year of successful work in a recognized medical or dental school.

An average record of B is required for recommendation to a Class A medical school.

Four-Year Pre-Medical

1. AMOUNT OF WORK. The student must complete 125 hours of work.

2. GRADE OF WORK. The student must obtain a total of 250 honor points; in other words, must obtain an average grade of C. However, for admission to Class A medical schools an average grade equivalent to three honor points per semester hour of credit is required.

3. PRESCRIBED WORK.
   a. The student must meet the prescribed course requirement as well as the major and minor group requirements for the General College A. B. course. If he has completed 60 or more hours in Group II he may elect to receive the degree of bachelor of science, general course, instead of the bachelor of arts.
   b. The student must meet the prescribed course requirement of the Three-Year pre-Medical Course, and, if possible, in the same order.

4. DISTRIBUTION OF ELECTIVES. Not less than 12 hours of his elected courses over and above the courses prescribed under 3 (above), but including Philosophy, must be in Groups I and III. The student is urged to elect Biology 307 and Chemistry 202 and 308m.

Three-Year Pre-Law

(See note regarding pre-Law entrance requirements on page 25.)

1. AMOUNT OF WORK. The student must complete 94 hours of work.

2. GRADE OF WORK. The student must obtain a total of 188 honor points; in other words, an average of C; except that he must obtain 282 honor points, representing an average of B, to warrant faculty recommendation for admission to a Class A law school.
3. **Prescribed Work.** Of the 94 hours required, certain hours are prescribed as follows:

A student who has had French or German in high school may have his number of hours prescribed in college reduced by four hours for each of the first two units of high school work.

Since modern language requirements for admission into law schools vary widely, students are advised to consult the office with respect to them.

4. **Distribution of Electives.** For their electives students should choose such subjects as are required for admission in the law school which they expect eventually to attend.

5. **Diploma and Degree.** On satisfactorily completing this course with a record of not less than 219 (C+) honor points received in the required 94 hours, the student will be eligible for the degree of bachelor of arts on the combined curriculum plan in letters and law after one year of successful work in a recognized law school.

Some law schools require an average grade equivalent to two honor points per semester hour of credit.
The requirement for admission to the Law School of the University of Michigan is graduation from an approved college.

Pre-Engineering

(See note regarding pre-Engineering entrance requirements on page 25.)

Normally four semesters of work at a recognized school of engineering, in addition to the three-year course here outlined, are necessary to finish a regular engineering course.

1. **Amount of Work.** The student must complete 94 hours of work.

2. **Grade of Work.** The student must obtain a total of 188 honor points; in other words, must obtain an average grade of C.

3. **Prescribed Work.** Of the 94 hours required, the following are prescribed:

THREE-YEAR CHEMICAL PRE-ENGINEERING COURSE

Freshman Year

The same subjects as the three-year general pre-engineering course above, except Chemistry 103-4; should take Chemistry 105-6.

Sophomore Year

The same subjects as the three-year general pre-engineering course above.

Junior Year

The subjects should be chosen in consultation with the student's adviser.

NOTE: Pre-Engineering students are urged to complete Advanced Algebra and Trigonometry in high school to avoid delaying the above programs.

Electives must be chosen in consultation with the Dean of the College or the adviser.

4. DIPLOMA AND DEGREE. On satisfactorily completing either course with a record of not less than 219 (C+) honor points received in the required 94 hours, the student will be eligible for the degree of bachelor of science on the combined curriculum plan in science and engineering upon satisfactory completion of the requirements for a bachelor of science degree in engineering in a recognized engineering school.

Abbreviated Pre-Engineering Course

For a student who is unable to take more than two years at Calvin College, a two-year program will be arranged to satisfy, as nearly as possible, the requirements of the Engineering School which he plans to attend. This program must be arranged with either the Engineering Course Adviser or the Dean of the College.

Major in Business Administration

Candidates for a bachelor of arts degree from the General College Course may select their subjects with a view to obtaining a major in Business Administration. They should complete the subjects prescribed for the General College Course (see p. 53). For students interested in Business Administration but who desire to earn a Bachelor of Business degree at one of the universities a two or three-year course can be arranged. Since the emphasis in the professional schools today is upon a broad liberal arts training, however, the student should consider the advisability of remaining at Calvin College for four years and transferring to the university after he receives his A.B. degree. He can then enroll in the Master of Business Administration program at the university. This kind of preparation for a business career is highly recommended by Business Administration School officials. To complete the major group requirements they should elect 24 hours in Economics and 12 hours
in another department listed in Group III (see p. 54). They may elect to complete their minor group requirement by selecting subjects either in Group I or Group II. The 24 hours in Economics must include Economics 201 and 202 and Economics 305 and 306.

Students desiring to receive a master’s degree in Business Administration at the University of Michigan, after receiving a bachelor of arts degree from Calvin College, can do so by successfully completing a maximum of one year and one summer at the School of Business Administration of the University of Michigan.

**Major in Music**

Candidates for the A.B. degree in the General College Course or in the Education Course may select music as a major field. The following requirements apply:

a. The general course requirements as prescribed for either the General College Course (see p. 53) or the Education Course (see p. 64).

b. Sufficient proficiency at the piano to pass a sight reading examination.

choose Instrumental Music Education or Vocal Music Education
they will be expected to complete the requirements for the Michigan
State Teacher's Certificate (see p. 64) in addition to the requirements
given under "a" through "e" (see p. 62).

In order to allow for the 40-42 hours required for the major in
music the student should begin with Music 103-104 in his freshman
year, pass the piano examination early in his course and choose his
minor fields with care.

CHURCH MUSIC
Students who are interested in a career in church music should
plan to do graduate work in this field. Undergraduate preparation
should consist of the Concentrate in Organ. In addition the student
should elect Music 303-304 (Counterpoint), Music 219-220 (Church
Music), Music 313-314 (Conducting), and Music 117-118 (Voice).

Minor in Music
A student wishing to choose music as a minor subject must in-
dude in the minor sequence:

Music 103-104 (Theory) .............................. 6 hours
Music 211-212 (Music Literature)
or
Music 305-306 (Music History) .................... 6 hours

Concerts and Tours
There are several musical organizations at Calvin College, offering
the student opportunity for singing or playing.

The Oratorio Society, 400 to 500 voices, has a long tradition of
presenting Handel's Messiah at Christmas time, and another oratorio
such as the Elijah or the Creation each spring.
The A Cappella Choir of 65 selected voices is well known throughout the United States and Canada through the annual tours taken during spring vacation. Usually the choir appears in fifteen or more concerts.

The Radio Choir is nationally known for its singing on the “Back to God Hour” broadcasts each Sunday. This choir also engages in an annual tour.

The College Orchestra plays the orchestral accompaniment to the oratorios and plays at least one full concert during the school year.

The College Concert Band plays many concerts in and around Grand Rapids and goes on a tour to the East or West during the spring vacation.

Students interested in chamber music may participate in weekly readings of works from the Cayman Music Library, using the Cayman Collection of fine old stringed instruments.

**Education**

Completion of the four-year course in Education leads to the A.B. degree and a Michigan State Teacher’s Certificate. Careful planning will insure the completion of both Calvin and State requirements.

Courses of study for those students who intend to prepare for special fields of Education, such as work with atypical children, may be planned with the Dean of the College.

1. **AMOUNT AND GRADE OF WORK.** 125 hours of work must be completed with 250 honor points. This means the maintenance of a C average or better. An average of C+ or better is required of all students entering the course in Directed Teaching.

2. **COURSE REQUIREMENTS FOR PROSPECTIVE HIGH SCHOOL TEACHERS: (Grades 7-12)**

Pre-Librarianship
The educational requirement for professional library work is a Bachelor's degree from an accredited college and a Master's degree in library science.

Calvin College offers courses of study which are acceptable for admission to any library school and for any type of specialization. While no special major is required, the course of study should stress a broad cultural background in liberal arts and science. Proficiency in typing should also be acquired. A reading knowledge of a modern foreign language is required.

Pre-library students may be given the opportunity for part-time work experience in the library.

Pre-Library Work Counseling
Detailed information regarding types of library work, library school requirements, and work-study programs may be obtained from the Director of the Library.

Pre-Agriculture, Pre-Forestry, Pre-Home Economics, and Pre-Occupational Therapy
Students interested in specializing in the fields mentioned above should see the Dean of the College. Curricula can be arranged to enable such students to remain at Calvin for one or two years.

Nursing Course
The Nursing Courses at Blodgett Memorial Hospital and Butterworth Hospital in Grand Rapids, Michigan, are so arranged that the first two semesters of the total three-year program are taken at the college. The courses listed below are given during this period.

Upon completion of these two semesters and an additional twenty-seven months of clinical experience at Blodgett Memorial or Butterworth Hospital the student is granted a diploma in nursing. She is then eligible to write the examinations given by the Michigan Board of Registration of Nurses, and upon passing these examinations receives a certificate to practice as a registered nurse.
Students wishing to take this course must make application at Blodgett Memorial Hospital or at Butterworth Hospital with the Director of the School of Nursing, before August 1. This should be done at the same time that application is made for admission to Calvin College.
