PSYC 323 Theories of Personality	PSYC 311 (2)
PSYC 340 Emotion and Motivation	300-level elective; Possibly PSYC 335 (4)
PSYC 352 Psychopharmacology	PSYC neuro course
PSYC 353 Brain and Cognition: Human Neuropsychology	PSYC 343 (4)
PSYC 355 Neuroscience and Behavior	PSYC 344 (2)
PSYC 358 Capstone	PSYC 399 (4)
PSYC 360 Applied Research	PSYC 356 (4)
PSYC 400+405 or PSYC 401+405	PSYC 380 (4)
COGNATE	
Any human biology course	BIOL cognate (human biology)

Regarding BS Psychology + Neuroscience Concentration:

Combination of some of their neuro courses, along with biology, chemistry, physics or neuroscience could move a student toward a BS Psychology + Neuroscience concentration. If they had their PSYC 352, 353, and 355, that would sufficiently cover the neuro-emphasis courses offered by Calvin’s Psychology Department.
