

BIOL 385 Enrollment Form

Revised March 2023

Calvin University's Department of Biology provides an opportunity for students to receive course credit for certain internship experiences. Students should consult with the faculty internship coordinator to determine whether or not their internship would be appropriate for receiving BIOL 385 credit. If approved, students must complete this form and submit it to the department internship coordinator, who will submit it to the registrar to formally enroll them in BIOL 385.
