

Our Green2Go program allows us to reduce our carbon footprint while also giving students, faculty, & staff the ability to eat on-the-go.

These containers are made from 100% BPA-free polypropylene and are both dishwasher and microwave safe.

All students, staff, and faculty may purchase into the program for a \$5 fee at our checker stands in the dining halls.

calvindiningservices

Step  
**1** Bring your Green2Go container or token to the Dining Halls when you are ready to use it  
*(Tokens may be exchanged for a clean container at the checker stand).*

Step  
**2** Fill your Green2Go container in the Dining Hall.

Step  
**3** When finished with your container, simply rinse it & drop it off with a checker and receive a Calvin Dining token in exchange.

Step  
**4** When you're ready to utilize Green2Go again, repeat the process!

## REDEEM

Your Green2Go container.

## FILL

Your Green2Go container.

## EXCHANGE

Your container for a token.

When you're ready to eat on-the-go again, repeat the steps.
