

CALVIN
College

2004
COMMENCEMENT

Saturday
May Twenty-Two
Three O'Clock

ALL PEOPLE THAT ON EARTH DO DWELL

*William Kethe
Louis Bourgeois*

All people that on earth do dwell,
sing to the Lord with cheerful voice.
Serve him with joy, his praises tell,
come now before him and rejoice!

Know that the Lord is God indeed;
he formed us all without our aid.
We are the flock he comes to feed,
the sheep who by his hand were made.

O enter then his gates with joy,
within his courts his praise proclaim.
Let thankful songs your tongues employ,
O bless and magnify his name.

Because the Lord our God is good,
his mercy is forever sure.
His faithfulness at all times stood
and shall from age to age endure.

THE CALVIN ALMA MATER

*Dale Grotenhuis
Celia Bruinooge*

Calvin, Calvin, sing we all to thee,
To dear Alma Mater we pledge fidelity.
Forever faithful to maroon and gold,
Thy name and honor we ever shall uphold.

Calvin, Calvin, God has been thy guide;
Dear Alma Mater, thy strength He shall provide.
Be loyal ever to the faith of old.
God's name and honor we ever shall uphold.

ORDER OF COMMENCEMENT

Prelude:	<i>Candide Overture</i>	Leonard Bernstein
Processional:	<i>Sine Nomine</i>	Ralph Vaughan Williams
	<i>Pomp and Circumstance March No. 1</i>	Edward Elgar
	Calvin College Band, Derald De Young, Ph.D., Conductor Performing in the Fine Arts Center	
*Opening Hymn:	<i>All People That on Earth Do Dwell</i>	
*Invocation:	Milton Kuyers, M.B.A., Chair, Calvin College Board of Trustees	
Introduction of Commencement Speaker:	Gaylen J. Byker, Ph.D., President	
Commencement Address:	“The Virtue of Conformity” Susan Felch, Ph.D., Professor of English	
Presentation of Awards:	Deborah J. Fennema, M.Div., President, Calvin Alumni Association, to James R. Gage, M.D., Class of 1960 and to Lois A. Ackerman Raap, J.D., Class of 1968, Distinguished Alumni	
Remarks on Behalf of the Senior Class:	Jeffrey P. Arnson, Student Senate Vice President	
*Litany for Commencement		
Conferring of Degrees:	Joel A. Carpenter, Ph.D., Provost, and Gaylen J. Byker, Ph.D., President	
Presentation of Diplomas		
*The Calvin Alma Mater		
*Closing Remarks		
†Recessional:	<i>Garrison Commander March</i>	Dwayne Milburn
	<i>The Melody Shop March</i>	Karl King
	<i>Stars and Stipes Forever</i>	John Philip Sousa

* Audience standing

† The audience is requested to be seated until the faculty and graduates have exited.

The 21 yellow roses on the platform celebrate the joy and friendship that marked the life of Michael Vander Wal. September 1, 1982–January 12, 2002.

The commencement ceremony is being professionally videotaped and photographed. Each graduate will have an opportunity to purchase videotapes and photographs of the event. Thus, we ask that friends of the graduates keep walkways clear for the camera crews.

LITANY FOR COMMENCEMENT

Liturgist:

Blessed are you, Lord our God, Ruler of the universe.
You are the Beginning and the End,
Sovereign over all times and all things,
Source and Sustainer of everything good.
Just and true are all your ways.

People:

Blessed are you, Lord our God, Ruler of the universe,
and blessed is your holy name forever!

Liturgist:

In Christ you are making all things new.
You reach out to rebels and call us friends;
you lavish your Spirit on the undeserving
and make us stewards of your purposes.

People:

Blessed are you, Lord our God, Ruler of the universe,
and blessed is your holy name forever!

Liturgist:

We celebrate your grace in those who graduate.
For the vital habits of mind and heart
that have brought them to this day,
for intellect, imagination, and authentic piety,
for disciplines faithfully acquired and skills
fruitfully applied:

People:

For these and all your gifts to us,
we thank you, gracious God.

Liturgist:

We celebrate your grace in this community of
faith and learning.
For diversity within shared purpose
and for the complex rhythms of our lives together,
for knowledge shared and insights deepened,
conversations joined, convictions tested,
horizons widened, heritages rediscovered:

People:

For these and all your gifts to us,
we thank you, gracious God.

Liturgist:

We celebrate your grace in all who go out from this place.
For those whom we honor today
as distinguished alumni,
for the reunion class of 1954,
and for all those who invest
what they have received
to build, serve, teach, create,
encourage, or renew,
who honor you by healing hurts
and repairing the broken places of our world:

People:

For these and all your gifts to us,
we thank you, gracious God.

Liturgist:

You are faithful in all that you promise;
keep us faithful in all that you entrust to us.

People:

As you multiplied loaves and fishes
across a crowded hillside,
so multiply our talents and desires
across our span of years.
May our learning blossom into wisdom,
our knowledge of your world into
passion for your will,
our ambition for achievement into
love of peace and justice.

Liturgist:

May your favor rest upon us, O God.

People:

Bless and establish the work of our hands.

All:

For all honor and glory and power are yours,
now and forever. Amen

COMMENCEMENT SPEAKER

Dr. Susan M. Felch

Susan M. Felch has been a member of the faculty since 1992 in the Department of English, and is a scholar in the area of sixteenth-century British literature and the intersection of religion and literature. She served from 1997-2003 as Director of the Calvin Seminars in Christian Scholarship—a faculty program designed to promote a strong Christian voice in the academy by addressing issues of current debate within various disciplines from the perspective of a deep Christian commitment and encouraging the production of first-order scholarship. In her role as Director, Dr. Felch worked tirelessly to recruit top Christian scholars from around the world for intensive study and intellectual community-building on campus. She greatly expanded the program, moving it from an original two summer seminars to seven conferences and nine seminars in 2002-2003.

Susan Felch received her Bachelor of Music Education degree with honors from Wheaton College in 1972 and her M.A. in Theology with highest honors in 1974. She completed her Ph.D. at the Catholic University of America in Washington, D.C. in 1991 with a dissertation on religious literary criticism. She is a dedicated scholar and gifted teacher and has written or edited six books and numerous scholarly articles and book chapters on topics as diverse as cultural and literary theory, Reformation women, pedagogy, Renaissance prayer books, and post-modernism. She has co-edited two volumes, *Winter* and *Autumn*, with colleague Gary Schmidt, both subtitled: “A Spiritual Biography of the Season.” *Winter*, published in 2002 by Skylight Paths Press, was selected as one of the best religious books of 2003 by the Massachusetts Bible Society, and was featured on National Public Radio: *The Connection and Tapestry*.

Susan Felch also serves frequently as an invited lecturer and has presented numerous academic papers for conferences and symposia in the United States and abroad. She is an ardent student of sixteenth-century

texts and has conducted extensive research in North American and English libraries for her publications. At Calvin she has served capably on numerous committees including the Hekman Library Committee, the Core Curriculum Revision Committee, the Honors Program Committee, and the North Central Association Accreditation Committee, to name a few. Her service beyond the college is extensive, and she currently serves on the boards of the Lilly Fellows Program in Humanities and the Arts and the Renaissance English Text Society. She has been an evaluator and adjudicator for NEH summer stipends, for scholarly manuscripts at The Catholic University of America Press and Baylor University Press, and for the Conference on Christianity and Literature.

Dr. Felch was selected for the Calvin University Lectureship 2000-2001 – a cooperative program with the Christian Reformed Church in which a scholar speaks at major universities in the U.S. and Canada, and at L’Bri in Switzerland. She was chosen in 2002 to direct an undergraduate honors conference for the Lilly Fellows Program on “The Vocation of Teaching in Religiously-Affiliated Liberal Arts Colleges,” and has won numerous grants including an Alumni Association Research Grant in 2003 for her work on “Pray as ye think best”: the development of private English prayerbooks. She won the 2002 prize for best literature paper presented at the Sixteenth Century Studies Conference: “Prayerbooks in their Pockets.” Her first book on Anne Vaughan Lock, completed with the assistance of a Calvin Research Fellowship and an NEH grant, was awarded the Approved Edition Citation from the Committee on Scholarly Editions of the Modern Language Association as well as Honorable Mention for The Josephine Roberts Edition Award, from The Society for the Study of Early Modern Women.

Susan is married to Rev. Douglas Felch, associate professor of theology at Reformed Bible College and enjoys books, the piano, her cat, and her students.

MESSAGE FROM THE FIFTY-YEAR REUNION CLASS

As today marks the end of your journey at Calvin College and the commencement of new challenges, our Calvin class of 1954 extends our greetings, our congratulations, and our best wishes to each of you in the class of 2004.

What changes we have witnessed in the five decades since we stood in your places! Some of you are graduating with majors in fields not yet invented in 1954. Threats of communism are now replaced by threats of terrorism. Your chances of a lifelong marriage have diminished considerably compared with ours. And the rate of change continues to accelerate.

We can scarcely imagine the world you will inhabit in the year 2054—if the Lord tarries that long. We are happy to know that you will be engaging yourselves in that world with the tools of your faith sharpened by the discipline of your studies here at Calvin. We delight in knowing that your professors have worked with you in the framework of that faith, tested by their involvement in the world of today.

It has been our privilege to take the gifts we were given, enriched and nourished by our professors and

friends at Calvin, to be salt and light in the small corners of the world to which we were called. A cynic, looking at our world today, may tell us our work has been fruitless. We can only say that we have, through grace, sought to be faithful. And, in return, God has been more than faithful to us. One of the signs of his faithfulness today is that he is raising up new witnesses to his truth and grace such as yourselves.

Our experiences have taught us that the world can inflict more pain than we could have imagined as young graduates. But we can also say that the amount of joy in our lives has been immeasurably greater than we could have guessed. We have seen that evil is indeed powerful and painful to endure. We have also seen that, in the end, love triumphs over hate, grace over guilt, and joy over despair. —“For though the wrong seem oft so strong, God is the ruler yet.”

After all, this is our Father’s world you will be engaging. We encourage and applaud you as you possess your small corner of the world in His name.

Rich Westmaas, for the Class of 1954

DISTINGUISHED ALUMNI

The Calvin Alumni Association is proud to present these alumni with the Distinguished Alumni Award. Persons honored in such a way have been chosen by an independent selection committee composed of alumni, faculty, and staff and are endorsed by the Calvin Alumni Association Board.

Recipients of the Distinguished Alumni Award have made significant contributions to their fields of endeavor, are recognized by their associates for outstanding achievements, and manifest a Christian commitment that reflects honor upon Calvin College.

James R. Gage, M.D. '60

Dios le pague are words that Dr. James Gage '60 has heard often during his frequent visits to Ecuador. Translated "God will pay you," the phrase is offered by grateful Ecuadorians to whom Gage has given medical attention.

"The people in Ecuador are very grateful, very warm, very kind," said Gage. They are also very needy, which is why Gage has made 13 trips to the South American country in the past seven years.

"In Ecuador, there are many communities that are rural, poor, and largely Quechua that have no access to orthopaedists," he said. "I have a good friend there, a medical missionary named Eckehart Wolff. He keeps a list of the children I need to see; then when I go down [there], I try to do as many surgeries as I can."

The visits have become more frequent for Gage since 2000, when he resigned from his duties as medical director at Gillette Children's Hospital in St. Paul, Minnesota. Gage continues as medical director of the hospital's cerebral palsy clinic, where the country's second fully automated gait analysis laboratory opened in 1987.

An innovative technological advancement in the treatment of children with cerebral palsy, the country's first such gait lab was founded by Gage at Newington Children's Hospital in Connecticut in 1981. Prior to that time, gait laboratories existed, but because they typically required eight hours or more of manual processing to enter data into a computer, they were too labor intensive

for routine use in a clinical setting. Gage envisioned a way of incorporating research already being done on gait analysis into an automated computerized clinical laboratory. Although the resources for developing such a laboratory were limited, Gage was determined.

Then director of the cerebral palsy service at Newington, Gage was unsatisfied with the results of surgery performed on patients with cerebral palsy.

"[Prior to gait analysis] I'm convinced we made as many children worse as we made better," he said. "I would talk to parents, and they were unhappy with the outcomes. We would start out with children who walked badly, and after surgery, they would walk differently—not necessarily better."

What was needed was a way to better analyze the way a child walks so that doctors could more accurately predict the outcome of certain procedures. "The treatment of cerebral palsy at that time was an art, not a science. Nothing existed to do testing," said Gage, in a 1998 interview with Spark.

Though a chemistry major at Calvin, Gage also had a strong interest in math and had contemplated getting an engineering degree. His analytical side knew there had to be a solution.

First, he approached United Technologies Corporation, a Hartford-based firm specializing in the design of aircraft and defense systems. Here, engineers were able to design a computerized system that would provide useful information about the most important joints and muscles used for walking.

The engineers were then able to devise a system to gather data from individual patients. Reflectors attached to the patient's critical joints and muscles were videotaped as the patient walked. Data from the cameras were then automatically downloaded into a computer, generating frame-by-frame stick figures that showed where the patient's gait deviated from a normal gait.

With the technology now available, Gage needed the necessary—and expensive—digital hardware. After contacting a friend, he was put in touch with Digital Equipment Corporation, which agreed to supply the

equipment at cost. Thus, the first automated gait analysis laboratory opened at Newington Children's Hospital.

Now, almost 23 years later, there are more than 50 such labs in the United States and many more worldwide. And now, as a byproduct, the technology, commonly referred to as motion analysis, has become popular in the production of animated movies and computer and video games.

A recently published follow-up on 178 children who had been analyzed in Gillette's gait lab and later were operated on showed very positive outcomes.

"We were very happy with the results," said Gage. "You can't fix an engine if you don't know how an engine works. We felt the same way about children with cerebral palsy. You can't improve results unless you assess the outcomes of their treatment."

Gage has shared his success through the publication of two books: *Gait Analysis in Cerebral Palsy* (MacKeith Press, 1991) and *The Treatment of Gait Problems in Cerebral Palsy* (MacKeith Press, 2004). He also has written many articles and has helped train many others in the operation of gait labs.

Gage continues to be involved with the gait lab at Gillette, the busiest in the country. "I cut down to half time so that I could spend more time in Ecuador, though," he said. "If I quit operating here altogether, I would not be able to keep my skills up to be effective in Ecuador."

Both his work in Ecuador and the U.S. reflect his values based on his faith, said longtime friend and colleague, Dr. Steven Koop, who is now the medical director at Gillette Children's Hospital. "Jim is my idea of a physician," said Koop. "He thinks of a particular problem in the context of a whole person; he thinks of the future. He listens well, and he recognizes that care is given by a group of people, of which he is one. He is a truly remarkable man."

Gage is accompanied on his frequent trips south by his wife, Mary Tebrake Gage '60. Mary is a former teacher, who now tutors English as a Second Language to students at a missionary school in Ecuador. "We go down there to get our batteries recharged," she said.

Jim Gage agreed: "The pleasure in life is giving to people. I feel like I still have a lot to give, and I still have a lot of energy with which to do it."

Lois A. Ackerman Raap, J.D. '68

Just southwest of San Jose, 50 miles from the honking taxi cabs and grandiose computer companies of California's Silicon Valley, sits the town of Los Gatos. Wend your way through the neighborhoods and find streets with names like Cherry Blossom and Roseleaf. The ranch-style homes with neatly groomed rose bushes and carefully cultivated lawns go well with the peaceful, garden theme.

Cruise down Lavender Lane and find more of the same—until you get four houses down the block and notice a different house—a unique house—with brown trim. The front lawn is a hodgepodge of potted cacti, tropical flowers, and overgrown bushes. The porch includes a ramp leading to the door.

Step inside the world of Lois Ackerman Raap '68.

Acacia, 15, lounges at the table chomping Doritos. Nathaniel, 20, wanders around the kitchen waiting to ask a question. Theo, 15, reclines with one shoe off in a leather armchair. Through the screen door onto the back patio, Lois hands out Popsicles to Vicente, 10, and Ruthie, her one-and-a-half-year-old granddaughter who follows her around like a puppy. Alyssa, 9, sits on a beanbag chair nearby, her labored breathing echoing in the background. The phone is ringing inside. The dogs are fighting outside. Raap calls it a party.

It's an understatement to say that Raap wears many hats. She is a mother, grandmother, caretaker, counselor, teacher, cook, lawyer, guest lecturer, neighbor, sister, and wife—moving so fluidly from one role to the next that it almost goes unnoticed—until you realize just how many lives she has touched wearing all those hats.

"Not only has Lois provided a loving, Christian home to numerous foster children, but she also emulated Christ for her adopted and biological daughters," writes Raap's daughter, Rachel Bouman '98.

Peter Raap '68, Lois's husband and teammate, said there is no use in counting the number of kids that have lived under their roof. It's beyond 40—with nine as the highest in the house at once. He described his wife as bright, hyper-organized, and "very high energy."

"She outruns me," he said.

Born in Grand Rapids, Raap became familiar with

challenges at a young age. Her father moved the family across the country—from Michigan, to Iowa, to Minnesota, to Illinois, to Washington—pastoring Christian Reformed churches. By her senior year of high school, Raap ended up in Bellflower, California, where she met Peter.

“Lois was looking for excitement, and I was looking for stability,” said Peter, chuckling.

They married, graduated from Calvin in 1968, and became teachers in California. Lois Raap soon realized her passion was helping children with disabilities, so she pursued a degree in special education from San Jose State University.

“Regular kids lack challenge,” said Raap. She views a special needs child as a puzzle, and her mind immediately starts working out how she will move the pieces.

Before boredom set in, the Raaps were off on their next adventure. They spent nine years teaching and working in Guam, where two biological daughters, Rachel and Sara, were born. During that time, they adopted Lani from the Philippines.

Eventually, the Raaps headed back to California. They signed up in 1987 to be foster parents. Then Acacia came into their lives. In addition to having fetal alcohol syndrome, heroin addiction, and attention deficit disorder, Acacia was diagnosed as being HIV positive. The Raaps decided this was God’s new challenge.

After Acacia, they took on eight more HIV-affected children. When friends, neighbors, and church members reacted with fear, keeping their distance from the Raaps because of ignorance about AIDS, they were devastated, but they persevered.

“If I’m doing what’s right, negative opinions don’t affect me,” Raap said. She clung to the story of Esther and believed God put her in a place of influence for “such a time as this” (Esther 4:14).

The “AIDS years” were followed by years of caring for other “medically fragile” children with spina bifida, bone marrow transplants, epilepsy, or emotional problems. Sometimes, mothers would live with the Raaps to learn how to care for their children.

One child, Alyssa, had been violently shaken by her father when she was only 12 days old. Her parents were both charged with child abuse and taken to jail. By the

time Alyssa was placed with the Raaps, she had been diagnosed as deaf, blind, and brain-atrophied. Raap worked on two fronts: nursing Alyssa at home and fighting for the rights of Alyssa’s mother, Staci Altemeyer, in jail.

Raap convinced the court to allow her to bring Alyssa to jail for visits. After a long investigation, Staci was eventually released, and her ex-husband was named the perpetrator.

This was just the beginning of Altemeyer’s journey. In weekly visits, Raap began to teach Altemeyer how to be a responsible mother. She became a Christian and a new member of the Raap family.

“I would hate to imagine what my life would be like if I had never met Lois,” wrote Altemeyer in nominating Raap for the award. “She truly was a light in my very dark life. I am now in a good marriage with one more child, and our home is full of a love that I felt for the first time when I went to the Raaps’ home.”

The Raaps mourned at Altemeyer’s side on April 30, 2004, when Alyssa passed away. Lois said she was eternally grateful knowing Alyssa was made whole again in heaven. She joins several other children that have gone on from the Raaps’ home to be with the Lord.

Lois and Peter talk about how their own daughters have benefited from the foster care experience. They’ve learned a lot of “life lessons,” including how to deal with death and sickness.

Today, Rachel is an attorney in Sacramento. Sara is mother to Ruthie and a real estate agent in Oregon. Lani is mother to Peter and president of an adoption agency in Washington. All three went to Calvin.

In 2001, Raap, always the learner, graduated from law school. She smiles at the memory of taking the bar exam alongside Rachel and being sworn in together in Los Gatos. Today, Raap practices family law so she can better represent the rights of foster children and parents. That is in addition to caring for her ever-growing family.

The phone rings. This time they’re asking the Raaps to take two more girls. The family of five grows to seven.

That will probably change tomorrow.

CANDIDATES WHO HAVE BEEN AWARDED GRADUATE SCHOLARSHIPS, FELLOWSHIPS, AND ASSISTANTSHIPS

Deborah S. Anema	SLIS Merit Scholar (Library & Information Science), University of Indiana-Bloomington
Michael J. Bloem	Fellowship (Economics), Washington University-St. Louis; Assistantship (Electrical Engineering), University of Illinois
Sara E. Boschma	Scholarship (Religion), Emory University
Nicole J. Buurma	Assistantship (Physical Therapy), Ohio University
Kimberly D. Cooke	Scholarship (Social Work), University of Denver
Mindy L. DeYoung	Scholarship (Law), Seattle University
Tracy L. Diephuis	Scholarship (Physical Therapy), University of Indianapolis
Benjamin D. Fox	Assistantship (Political Science), University of South Carolina
Abbie C. Gosselink	Fellowship (Plant biology), Michigan State University
Kristin R. Harris	Fellowship (Education), University of Michigan
Rebecca K. Hielema	Scholarship & Assistantship (Social Work), McMaster University
Laura M. Hoksbergen	Fellowship (Library Science), University of Illinois
Emily R. Huck	Fellowship (Theology), Princeton Theological Seminary
Michael D. Hutchins	Fellowship (German), University of Cincinnati
Beverly S. Illian	Fellowship (Biology), Washington University-St. Louis
Kristine E. Johnson	Teaching Assistantships (Rhetoric), Purdue, Arizona State, DePaul Universities
Rebecca L. Jordan	Scholarship (Theology), Union-PSCE, Columbia Theological Seminary, Calvin Theological Seminary
Youngbin Kim	Scholarship (Psychology), University of Notre Dame
Dean C. Kladder	Grant (Theology), Princeton Theological Seminary
Matthew J. Koop	Assistantship (Computer Science), Ohio State, Indiana, Kentucky and Michigan State Universities

Rachel A. McNamara	Fellowship, NIH National Institute of Deafness & Other Communication Disorders
Jonathan J. Meyer	Marquand Scholar, Yale Divinity School
Michael T. Minnema	Fellowship (Psychology), University of California-Los Angeles
Nicole A. Neuman	Scholarship and Assistantship (Biomedical Sciences), Tufts University
Mark J. Schemper	Assistantship (Political Science), University of North Carolina, University of Minnesota
Samuel L. Schoofs	Assistantship (Electrical & Computer Engineering), University of Illinois-Urbana; Double Degree Award, Georgia Tech Lorraine
Bradley R. Schrotenboer	Assistantship & Fellowship (Geography), University of Michigan; Assistantship, University of Georgia
Michael H. Schuitema	Scholarship (Law), University of Virginia
Eric W. Smith	Assistantship (Chemical Engineering), University of Notre Dame
Jonathan D. Stehouwer	Assistantship (Psychology), University of Minnesota
Julie A. Storteboom-Griffen	Assistantship (Clinical Neuropsychology), Wayne State University
Zhen Tao	Darrow Scholarship (Law), University of Michigan
Jonathan M. Ten Brink	Para-Voice Award (Music), Bowling Green State University
Sarah A. Van Dyke	Scholarship and Assistantship (Psychology), Wayne State University
Rianna L. Vandergaast	Scholarship, Fellowship (Biochemistry), University of Wisconsin-Madison
Allison A. Vander Woude	Assistantship (French), University of Wisconsin-Madison, University of Colorado; Fellowship, University of Oregon
Timothy A. VanHaitsma	Assistantship (Exercise Physiology), Indiana University
Rachel M. Venema	Scholarship (Social Work), University of Michigan
Sarah M. Weeda	Assistantship (Plant Physiology), Washington State University
Yumiko Watanabe	Assistantship (Mathematics), Universities of Notre Dame, Nebraska, and Michigan State

DEPARTMENTAL BANNERS

Throughout history, colorful banners have been used to mark important religious and civic events and to celebrate the vision and spirit of the participants in such events. The departmental banners displayed at this occasion arise from an awareness of this tradition and are meant to continue it. Besides symbolically revealing the richness of the various disciplines at Calvin College, the banners graphically represent their distinctiveness. Although their colors are mostly in keeping with traditional associations—scarlet for religion and theology, blue for education, orange for engineering—their forms combine the traditional, the contemporary, and the abstract.

Art

Biology

Art Department

An abstract eye and hand symbolize artistic expression through the artist's sense of sight and touch. Bright colors against black suggest creative boldness.

Biology Department

Dominating the Biology banner is a symbol representing the structure of the DNA molecule, deoxyribonucleic acid. The structure of this fundamental material of life, the chemical basis of heredity, was revealed in 1953 and actually photographed in 1969.

Chemistry &
Biochemistry

Classical
Languages

Chemistry and Biochemistry Department

The main symbol used in this banner is the electron distribution for tetrahedral hybrid orbitals, which represents the chemical activity of the elements and their compounds. Two segments of a crystal structure are included in the design, which are also the floor-plan shape of the science building. The shaft of pale yellow symbolizes the light of investigation. Yellow is the traditional color associated with science.

Classical Languages Department

While the lyre and the wolf may be taken individually as symbols of Greece and Rome, together they portray the unity of the two civilizations and its cultural achievement, the union of art and nature, and of poetry and myth. Horace has given this continuity and fusion of the two traditions of Greece and Rome its classical literary expression in his odes, of which none better, perhaps, than the "Integer vitae" ode conveys the intention of this banner.

Communication
Arts & Sciences

Computer
Science

Communication Arts and Sciences Department

Sound waves emanating from a central core symbolize communication through speech and drama. The reversal of the outward movement suggests feedback in communication. Silver gray is the color traditionally assigned to speech and drama.

Computer Science Department

The banner of the Computer Science Department features a Turing machine, the foundational model of digital computation. The zeroes and ones on its tape reflect the binary logic by which digital computation is implemented. The changing colors and order of the numbers express the transition as data move from input through processing to output. The white shaft and its golden sheath symbolize the light and energy of education and the sciences. The flowing wind symbolizes the transforming work of the Holy Spirit as it infuses the discipline of computing.

*Economics
& Business*

Education

Economics and Business Department

Shapes and lines express the charting and planning of economic budgets. Subtly appearing among other symbols is a cross expressing the Christ-centered teaching of economics at Calvin College. Copper is the color associated with economics.

Education Department

The relationship of teacher and student in the educational process is represented by the forceful interaction of shapes in this design. The white shaft symbolizes the light of learning in the Holy Spirit. Blue is traditionally linked with education.

Engineering Department

The Engineering banner illustrates the key activity of engineers, namely, their involvement with the design process, an iterative, decision-making sequence. Steps in the sequence, represented by circles and rectangles, are connected by arrows to indicate the movement from the initial problem statement to final solution. Two-way arrows suggest the possibility of sequence reversal. Orange traditionally designates engineering.

English Department

The two main symbols, the lion and the eagle, represent England and the United States of America. The lozenge pattern in the background expresses the pageantry of England during the development of the English language.

French Department

The banner of the Department of French features the Coq Gaulois, long a national emblem of France, and the Arch of Triumph, a symbol of French patriotism. The cock, traditionally the Christian symbol for watchfulness, has been adopted as its symbol by a nation which since its inception has been one of the important cradles of Christian thought and practice. The colors of the national flag are represented by the Coq Gaulois.

Geology, Geography, and Environmental Studies Department

Earthkeeping, the human community's care for God's earth, is symbolized in the banner for the Department of Geology, Geography, and Environmental Studies by representations of atmosphere, mountains, cities, water, and the various levels of the earth's interior. The white shaft symbolizes the light and energy of learning stimulated by the Holy Spirit.

Germanic and Asian Languages and Literature Department

The study of the Dutch and German languages is represented by symbols taken from emblems of the countries associated with these languages. The traditional black eagle represents Germany, and the orange lion is from the seal of the Netherlands. The white shaft symbolizes the light of learning.

Health, Physical Education, Recreation, Dance, and Sport Department

Engaged in exercise, sports, and dance, a person in motion is suggested by the movement of rhythmical shapes and lines. Sage green is the color associated with physical fitness.

History

Library

History Department

Jagged horizontal bands, representing both the rise and fall of civilizations and the four kingdoms as described in the Book of Daniel, move across vertical time lines, which also symbolize the dramatic influence of Christ on history.

Library

The library as a gatherer, receptacle, and distributor of information, ideas, and learning is represented by the abstract book shape, while the white, flowing shaft itself symbolizes the light and energy of learning in the Holy Spirit of God. The flame is the traditional symbol of learning and discovery through research.

Mathematics
& Statistics

Music

Mathematics and Statistics Department

Mathematicians have always saved time and effort by substituting symbols for words. The basic arithmetical steps of adding, subtracting, multiplying, and dividing are depicted on this banner by some of the earliest ways of writing them down.

The Renaissance calculator Tartaglia used the first letter of the Italian word for *plus* to signify adding. Diophantus favored this minus sign in Greek times. Leibniz employed this multiplication symbol in seventeenth-century Germany. J. E. Gallimard used this reverse *D* for division in eighteenth-century France.

Music Department

The design of the Music banner emphasizes the rhythms of musical sounds. Shapes and lines suggest strings, valves, keys, horn bell, drum, and other musical forms. Radiating circles suggest sound waves. The colors express the various moods of music.

Nursing

Philosophy

Nursing Department

The traditional emblem of nursing, Florence Nightingale's lamp, is featured in the banner for the Department of Nursing. The flame of the lamp symbolizes the light of Christian compassion and education. The gold of the lamp is the traditional color for science. The background apricot color is the academic regalia color for nursing, while the white shaft represents peace through the Holy Spirit.

Philosophy Department

Light refracted through a transparent prism symbolizes the many-faceted investigations of fact and of principles of reality and of human nature and conduct.

Physics and Astronomy Department

The construction of elements is symbolized in the Physics banner by the simplest atom, hydrogen, with its single proton and electron. Also included in the design are a tracing of the paths of particles from an atom and a segment of a crystal structure, which is also the floor-plan shape of the science building. The yellow shaft symbolizes the light of investigation.

Physics &
Astronomy

Political
Science

Psychology

Political Science Department

The banner of the Department of Political Science features a representation of the fasces, a symbol of the authority of the state, and arrows that express the direction and flow of the analytical and holistic nature of the process of law. The fasces, a bundle of rods bound about by an ax with projecting blade, was carried before ancient Roman magistrates as a symbol of authority. The white shaft of seven rods also symbolizes peace and enlightenment through the Holy Spirit.

Psychology Department

The Greek letter *psi*, the first letter of the Greek word *psyche* (the mind), traditionally signifies the discipline of psychology. The color red symbolizes emotion; blue, rationality; and white, peace through the Holy Spirit.

Religion

Sociology &
Social Work

Religion Department

Three symbols of the Trinity—circle, cross, and dove—express the fullness of God as He reveals Himself as Creator, Savior, and Counselor. These symbols are interlocked to depict the oneness of God. The shaft of white is the light of learning in Christian education guided by the Holy Spirit. Scarlet is traditionally associated with theology.

Sociology and Social Work Department

The central concept of sociology, represented by the inner circle, is a person interacting with other people to form groups. Total human society, represented by the broken circle, is composed of many small units forming a larger interrelated structure. All groups, from the family to society itself, exist within a framework of social norms. This normative or cultural framework, represented by the unbroken outer circle, promotes conformity, as suggested by the arrows directed from it toward the inner circles of society and the smaller group.

Spanish

Spanish Department

The banner of the Spanish Department features the traditional symbols of the historical kingdoms of Castilla (castle), León (lion), and Aragón (red and yellow bars). These Christian kingdoms emerged during the eight-hundred-year-long reconquest of the Iberian Peninsula from domination by Muslim rulers. The separate kingdoms were joined through the marriage of Ferdinand and Isabella, and eventually coalesced into the modern nation of Spain.

Banners:	Robin A. Jensen
Building Arrangements:	Richard Field, Sandy Palmatter
Commencement Reception:	Creative Dining Services
Commencement Committee:	Rick E. DeVries and Darlene Meyering, co-chairs; Donna Anema, Ann Baker, Sharolyn Christians, Robert Crow, Rick Balfour, Jeff Stob, Mary Jeanne Quist, Diane Vander Pol, James Van Wingerden
Commencement Participants:	Clarence Joldersma, Debra Freeberg, Larry Louters, Karen Saupe, Michael Stob, James Vanden Bosch, Christina Van Dyke, Dean Ward
FAC Master of Ceremonies:	Tom E. McWhertor, Vice President for Enrollment and External Relations
Greeters:	Adel Abadeer, Martin Bolt, Joy Bonnema, Randy Brouwer, Dale Cooper, David De Heer, Earl Fife, Tom Hoeksema, Wayne Joosse, Michelle Loyd-Paige, James MacKenzie, Richard Nyhof, Arden Post, Raymond Slager, Franklin Speyers, Leroy Stegink, Peter Tigchelaar, Glen VanAndel, Judy VanderWoude, Yvonne VanEe
Litany:	David Diephouse, Ph.D., Professor of History
Faculty Marshals:	Barbara Carvill, Ph.D., Professor of Germanic Languages, Kenneth Piers, Ph.D., Professor of Chemistry
Student Marshals:	Timothy Yaw Bediako, David D. Beversluis, Deborah J. Frieswyk, Ayra M. Omnes
Design:	Calvin College Publishing Services
Publicity:	Phil de Haan, Director of Media Relations; Michael J. Van Denend, Director of Alumni and College Relations
Flowers:	Eastern Floral
Sculpture:	Ronald O. Pederson
Signer:	Nancy De Maagd
Technical Assistance:	Audio Visual Department, Conferences and Campus Events Technical Services, and Calvin Information Technology

Relatives and friends are invited to a reception in honor of the graduates. The reception will be held on the Commons green after Commencement. In the event of bad weather, the reception will be held in the following locations for the various departments:

Spoelhof Center:	Art, Education, Political Science, Sociology and Social Work
Fine Arts Center:	Communication Arts and Sciences, English, Music
Hiemenga Hall:	Classical Languages, Dutch, French, German, History, Japanese, Philosophy, Religion, Spanish
North Hall:	Economics and Business, Computer Science, Mathematics and Statistics
Science Building:	Geology, Geography, and Environmental Studies; Nursing; Psychology
DeVries Hall:	Biology, Chemistry, Physics, Administration
Prince Building:	Engineering; Health, Physical Education, Recreation, Dance, and Sport
